To: Howard County Health

9/5/97

I, Robert L. Wardle of 9939 Route 99 have consulted with Mark Ritken on this date in order to expand the capacity of my existing dry well. I have provided him with the needed information to evaluate my plans to dig a trench off my drywell. The trench will connect to the dry well and extend in a southerly direction away from my residence. Although the system is operating adequately at this time with 3 people in the house, I am concerned about its ability to perform in the future either for myself or any future owners who may have 8 people in my four bedroom house and the legal implications that could arise. The nearest sewer is 350' ± away (Rt 99). A swale lies between my house and the sewer.

Sincerely,

Robert L. Wardle
