Provide a brief site history including reference to all previously submitted or currently active plans on file with the County (subdivision plans, Board of Appeals petitions, waiver petitions, etc.)

The church was constructed in 1948, and has been used for that purpose upto
the present. THERE ARE NO PREVIOUS OR CURRENT PLANS ON FILE.

II. Waiver Request

In accordance with Section 16.104 of the Howard County Subdivision and Land Development Regulations, the Department of Planning and Zoning, in conjunction with the Subdivision Review Committee **may grant waivers or modifications to the minimum requirements stipulated within the Regulations if it is determined that extraordinary hardships or practical difficulties may result from strict compliance with the regulations, or if it is determined that the regulations may be served to a greater extent by an alternative proposal.**

In the area below, the petitioner shall enumerate the specific numerical section(s) from the Subdivision and Land Development Regulations for which a waiver is being requested and provide a brief summary of the regulation. Attach a separate sheet if additional information is appropriate.

<u>Section Reference No.</u>	<u>Summary of Regulation</u>
1. <u>16.155 (a) (1) (i)</u>	<u>Waiver of the site development plan requirement to construct a 12 x 14 two-story addition</u>
2. _____	_____

FULL GOSPEL BAPTIST CHURCH
14350 FREDERICK ROAD
COOKSVILLE, MARYLAND 21723

ATTACHMENT "A"

Howard County Department of Planning and Zoning

Division of Land Development

The Church is requesting a waiver of the site Development plan requirement to construct a 12x 14 two- story addition. If denied the church would be incurring a financial burden that it or its members can't afford. The existing condition presents a safety hazard and creates a functional obsolescence as well as an eyesore to the general public. The church is further concerned that if this waiver is denied the building is open and more vulnerable to vandalism.

This alternative proposal will support the intent of the regulation to a greater extent, by providing a safe second exit in the event of fire. The stairs are exposed now, would be enclosed in this proposal eliminating a further hazard during winter. This alternative proposal will improve the site functioning and would have no adverse impact. The new improvements will enhance the appearance and functionality of the building for the betterment of its members and the public.

The area consist of upper scale homes and the approval of the waiver will allow the building to look more in line with the modern neighboring structures and will not impair the appropriate use or development of the surrounding properties.

The approval of the waiver request will not nullify the intent and purpose of the regulations. The petition plan exhibit is hereto attached, we feel this is a suitable substitute for the requirements and provides all the information necessary to satisfy the intent or purpose of the regulations.

DEPARTMENT OF PLANNING & ZONING

Joseph W. Rutter, Jr., Director
October 17, 2000

Mr. Ted Coates, Chairman of Trustee Board
Rev. James H. Stovall, Pastor
Full Gospel Baptist Church
14340 Frederick Road
Cooksville, Maryland 21723

RE: Minor Renovations to Full Gospel Baptist
Church; 14350 Frederick Road
Tax Map 8, Grid 23, Parcel 105

Dear Mr. Coates and Rev. Stovall:

This is in response to your letter dated September 25, 2000, in which you request a determination concerning proposed renovations to the Full Gospel Baptist Church (the "Church") on the property referenced above. In your letter, you explain that the Church was constructed in 1948 and has been in use since that time. You note that the Church pre-dates the establishment of Zoning Regulations in the County, and therefore the Church does not have any previous Special Exception approval. You state in your letter that there are exterior stairs on the east side of the Church which have deteriorated and must be replaced for safety reasons, and you have provided photographs of these deteriorated stairs. You propose to construct a 12 foot by 14 foot, two-story addition which would contain a new, enclosed stairway adjacent to the northeast corner of the Church. The extra space in the addition would be used for storage and for room for the Pastor. You ask whether this renovation to the Church may be approved without Board of Appeals approval.

There is no evidence of any Board of Appeals cases for the Church in the Department of Planning and Zoning records. The Church was established prior to the establishment of the Zoning Regulations and significantly before the current Special Exception requirement for religious facilities, which became effective in 1977. Therefore, the Church is an unconfirmed nonconforming use. In the Nonconforming Uses section of the Zoning Regulations, Section 129.B.1.c. permits "repair work as is required to keep a nonconforming structure in sound condition shall be permitted", and Section 129.B.3.c. permits the "relocation or construction of minor structures which are accessory to a lawful nonconforming use is permitted if such relocation or construction does not significantly affect the function, dimensions or value of the nonconforming use." The proposed addition is intended primarily to replace a deteriorated exterior stair. The Church would function predominantly in the same manner, and the small size of the addition would not change the dimensions or value of the Church significantly. Therefore, it is the determination of this Division that the proposed renovations may be authorized under the provisions of the Zoning Regulation sections referenced above, without Board of Appeals approval.

Mr. Ted Coates, Chairman of Trustee Board
Rev. James H. Stovall, Pastor
October 17, 2000
Page 2

Although Special Exception approval is not necessary for the renovations, this work still would be non-residential construction which ordinarily requires approval of a Site Development Plan under Section 16.155(a)(1)(i) of the Subdivision and Land Development Regulations. The Division of Land Development has also evaluated your proposal, and that Division finds that it may be appropriate for consideration as a Waiver Petition. I have enclosed the application form and brochure for this process. Please be aware that the Department cannot speculate on the outcome of such an application. If you have any questions about the Waiver Petition process, call the Division of Land Development at 410-313-2354.

According to the plan submitted with your letter, the addition would fully comply with the RC district setback regulations. Please submit a copy of this letter with your Waiver Petition application, and if it is approved, also submit a copy with your building permit application. If you have any questions, please contact me or Bob Lalush at 410-313-2393.

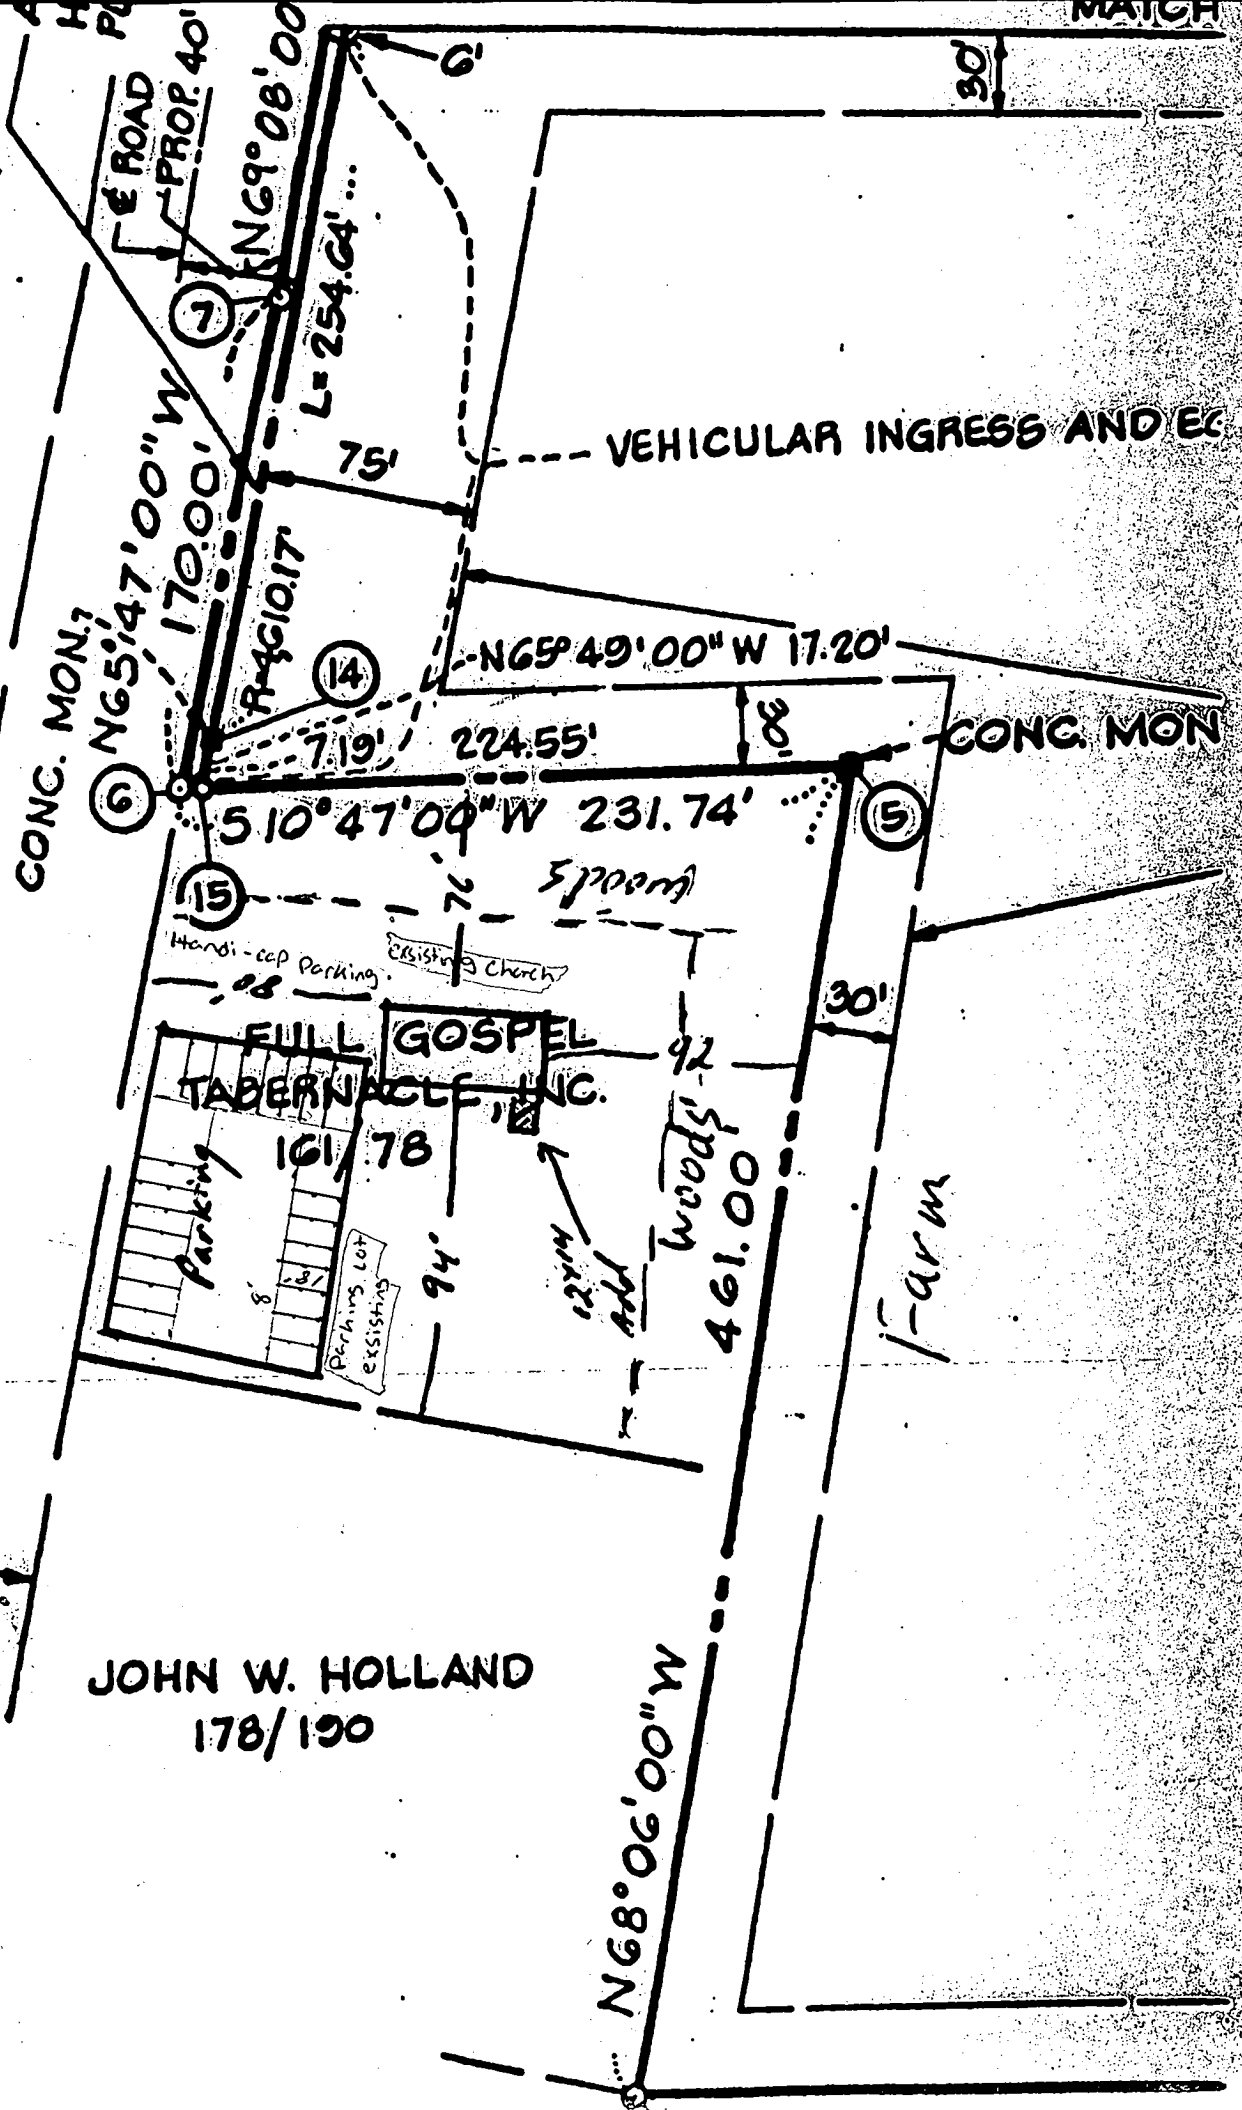

Sincerely,

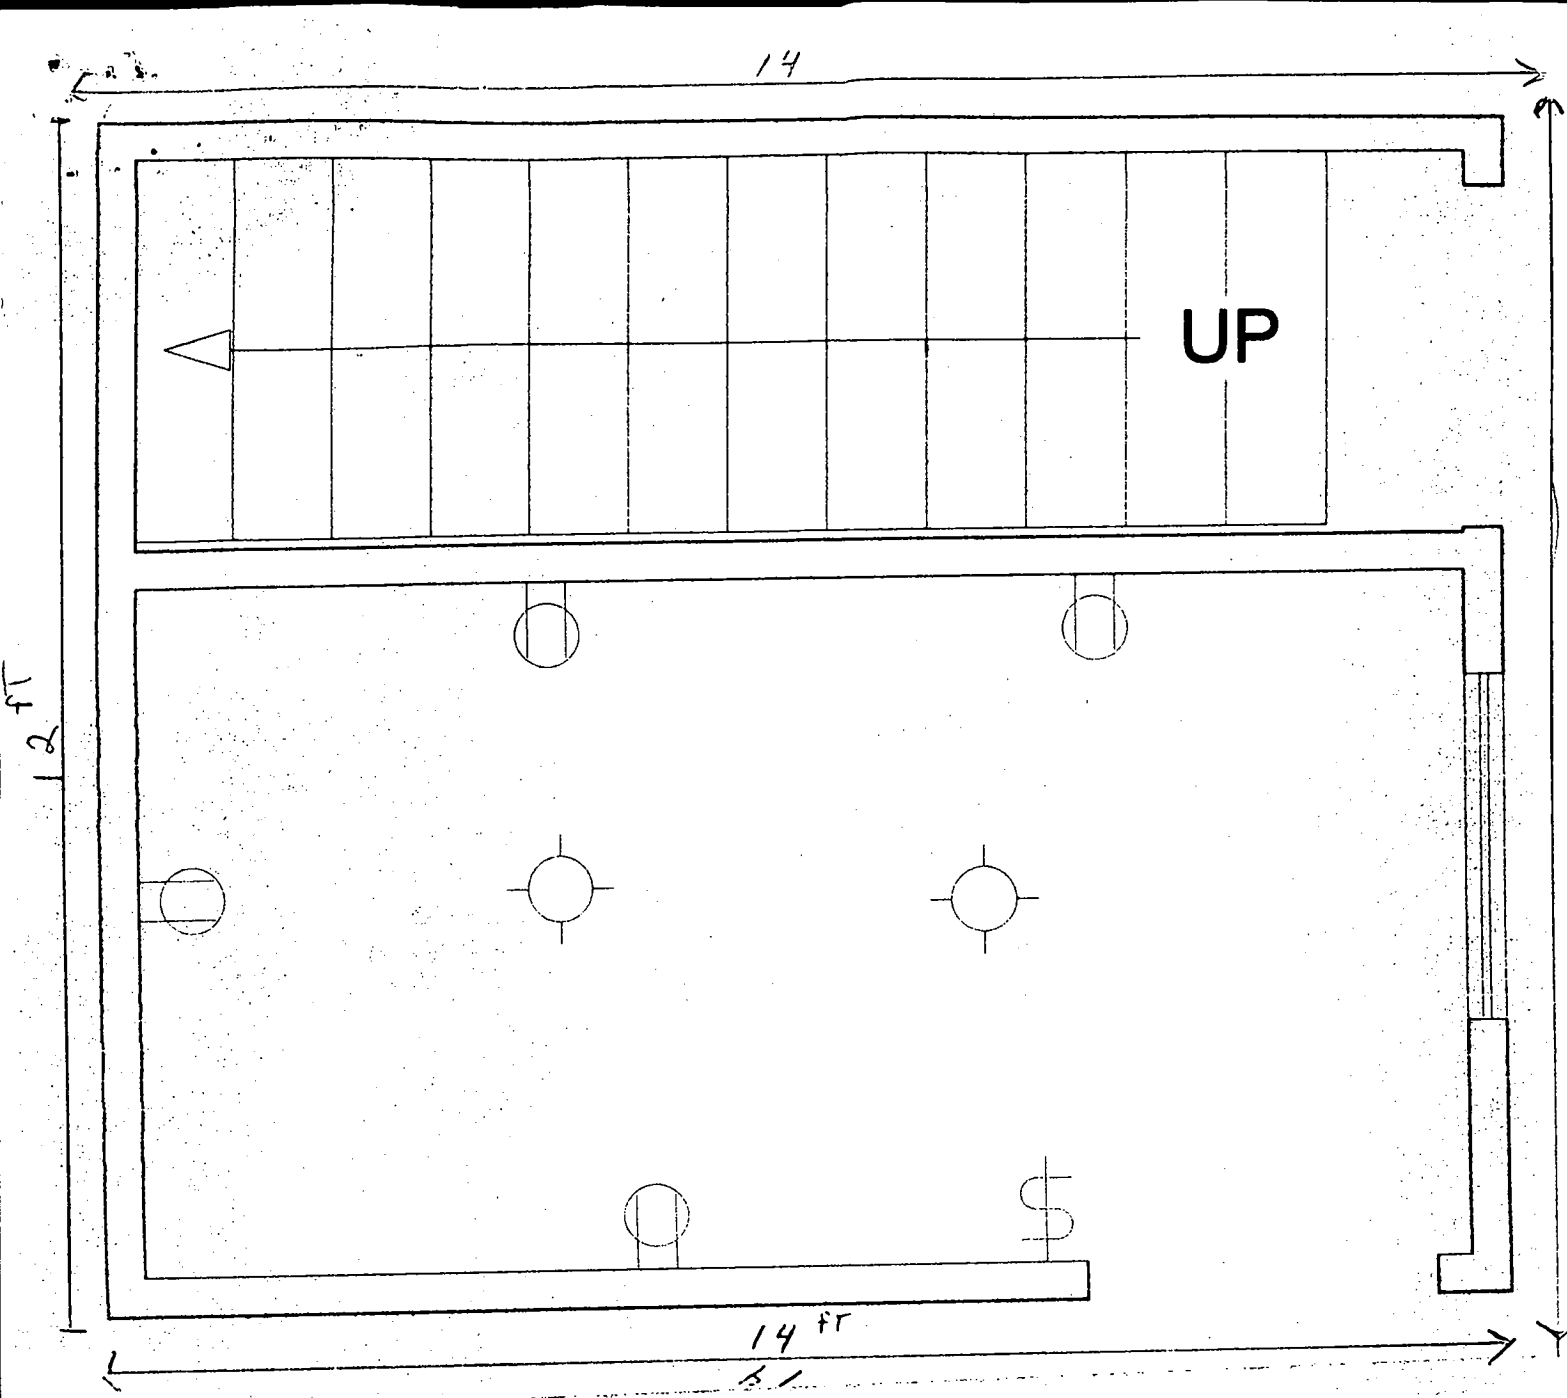

George L. Beisser, Chief
Division of Public Service
and Zoning Administration
