Draywell and trench system to have 138 SQ. FT. effective sidewall absorption area per bedroom to be in the first 4 1/2 ft. of non-porous soil. Maximum depth permitted for drywell or trench is 4 ft. below original grade. Place the drywell 110 ft. from the front lot line and 20 ft. from the left side line as seen when facing the property from Brighton Dam Road. Start the trench after a 5 foot earth buffer with the drywell, and proceed to dig it on level ground, the necessary distance. If trenches only are used, they must contain at least 200 sq. ft. effective sidewall absorption area per bedroom (one side only). Be connected in series; be spaced parallel twice their gravel depth apart; and be no longer than 100 ft. pieces. NOTE: Call for inspection of trench before gravel is installed.
