RE: Building Permit B07001038
14341 Howard Road

Dear Mr. Hill,

Review of building permit B07001038 for the referenced property has been completed by our office. The following statement must be added to the site plan, "The existing well shown on this plan (identified with the attached well tag number ex: HO-##-####) has been field located by _____ (individual or company name) professional land surveyor(s) and is accurately shown."

The building permit will be placed on hold until these revisions are made. Please revise and resubmit the site plan to accompany the building permit. If you have any questions regarding this matter please contact me at 410-313-1775

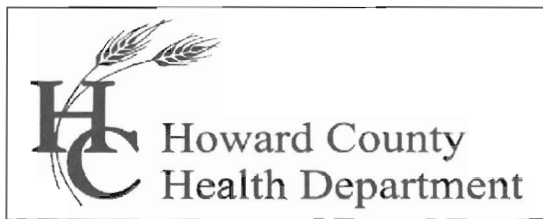

Sincerely,

Ashley Trump

INTERIM CERTIFICATE OF POTABILITY
Expiration Date – JANUARY 19, 2014

JULY 19, 2013

Homeowner
14331 Howard Road
Glenelg, MD 21737

RE: K and D Stables Revision, Lot 4
14331 Howard Road
Building Permit: B13000400
Well Permit: HO-95-0153

Dear Homeowner:

This is to advise you that the septic system installation and water well construction for the above referenced property have been inspected and approved. Final approval of the septic system was granted on **7/19/2013**. Final approval of the well line connection to the dwelling was granted on **7/9/2013**. The well construction was completed on **11/10/2005**. Water samples were collected on **7/17/2013**.

The water sample results indicate that the water samples submitted for testing were free of coliform and fecal coliform bacteria at the time of sampling and are bacteriologically safe for drinking. This certifies that the initial sampling requirements of COMAR 26.04.04 "Well Regulations" have been met for the water supply system installed under well permit HO-95-0153. Although the submitted sample results are in compliance with COMAR standards, the Health Department does not guarantee water supplies.

This Interim Certificate of Potability will expire **six months** from the date of issuance. Submission of a second bacteriological test indicating the water is free of coliform and fecal coliform bacteria is required prior to the expiration date, after which time a Final Certificate of Potability will be issued. **Failure to submit an additional sample and obtain a Final Certificate of Potability will result in a Notice of Violation and is punishable as a misdemeanor under the *Annotated Code of Maryland, Environment Article, 9-1311*, subject to a fine of up to \$500 or imprisonment not to exceed three months.**

Please contact (410) 313-1773 to schedule a final water sample appointment or contact a Maryland certified water laboratory to schedule a water sample. A list of laboratories certified by the state of Maryland may be found at the following website:
