February 5, 2004

To Ms. Avis Corbin:

This letter is in reference to Building Permit # B00143518 which we would like to amend.

Currently, the permit lists the new addition as adding two bedrooms. We must amend this and change one room from a bedroom to an office/den as the new septic will not support the forth bedroom. We have decreased the size of the room from 13' to 11' long and decreased the width of the room by 2'. In addition we have increased the opposite room to 16x17 to be used as a study.

By decreasing the width, we in turn lined up a wall with a bearing point thereby making the center wall a bearing wall.

Attached is a floor plan showing these changes. If you have any questions I can be reached at 410.381.7883.
