House to set in center

Dear Alice:

This is a follow up to our telephone conversation of March 16th, requesting a perk test be done on the above property.

I have enclosed a copy of State Highway Administration plat number 52980, and Howard County Tax map 41, for your information.

Please feel free to contact me, if you need additional information.

Sincerely,

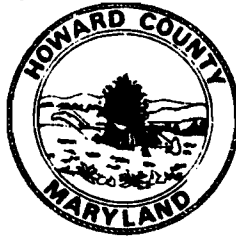

333-1650

Gary W. Bowman

RE: Percolation Test Application
Maryland Department of Transportation
Project Number: HO 314-040-771
John W. Harris, Jr. Property
Item Number: 61101
Tax Map: 41 Parcel Number: - Not Identified

A percolation test application has been submitted by Fogle's Septic Clean, Inc. for the above referenced property.

Additional detail about site conditions and about the nature of the proposed project is required before the testing can be scheduled. Generally, the property owner or site engineer is in the best position to provide this information.

Our experience with adjacent properties suggests that Spring "Wet Season" evaluation may be required due to potential seasonal high water table. In order to accomplish testing during the current "Wet Season" (ending date April 30, 1992), a review conference regarding this application should be conducted at the earliest opportunity per our telephone conversation of April 3, 1992.

This meeting has been scheduled for 11:00 a.m., Wednesday, April 8, 1992.

RE: Percolation Test Results Application
Number: A47997
Proposed Use: Recorded Lot
Property ID: Project # HO-314-040-771
Lot off Southside Guilford Road at
Freetown Road Intersection
Tax Map: 41 Plat Number: 52980

Dear Mr. Wilkerson:

Percolation testing conducted April 27, 1992 on the above referenced property indicated unsatisfactory soil conditions, namely high water table and slow to nearly impermeable soil percolation rates. Copies of the test results are enclosed.

If you have any questions or require additional clarification, please do not hesitate to call me at 461-9933.

Very truly yours,

Ronald J. Pinkley, R. S.
