Dear Mr. Williams:

In July of 1971 we drilled a 500 ft. well with 30 ft. of casing and producing 30 GPM on the property at W. R. Grace. The well is located near the river and is used as a water supply well. The client has now decided to abandon the well. Our procedure will be as follows:

Cravel	500 ft. - 450 ft.
Grout	450 ft. - grade

Please call me if you have any questions or concerns regarding this procedure.

Very truly yours,

George F. Easterday
