PRE-CONSTRUCTION:

1/30/13 met w/ contractor on-site. gave location of pump tank to be set on side-slope 10' off of driveway. This was only accessible spot for tank. notes set back to all wells. Trenches laid out as before. Stay 100' removed from walls, install 2x60' trenches as pointed out in field. Avoid trees as possible. Maintain 10' if at all possible. Call for f/v map (see)

INSTALLATION:

2/4/13 Nothing much done. Contractor making force main ~80' under driveway to high side where it will be trunched up to D box.
 2/6/13 New sewer line from ex. s.t. ran up to proposed pump tank location. Tank in route to job site. Top trench dug and stored. (see)
 2/12/13 Trenches complete. Sewer tied into new pump tank. Electrician finishing up work on pump. Need to see D box, dist. network and pump test. (see)
 2/15/13 Pump/Alarm test good. System complete. Daywell collapsed.

URGENT:

While driving to a friends house I turned into the wrong driveway where I noticed that they were pumping liquid out of their septic onto their lawn. The property was on a hill with a stream at the bottom on the other side of the street. Cant this harm the well's in the area and the streams that lead to the bay? Please check into this.

Thank You,
Concerned Citizen

Shared drive & house was first drive on the right.
