**RE: Variance Approval**  
1973 Long Corner Road  
Mt. Airy, MD 21771

Mr. Nguyen:

This letter is being issued in response to your waiver request dated August 6, 2015. This agency will grant **approval** of the waiver to the required Percolation Certification Plan and perc testing to establish a septic reserve area as required by the *Howard County Code, Subtitle 8, Section 3.805*. The waiver has been approved on the basis that the proposed addition does not impact the available area for on-site sewage disposal and does not increase building occupancy. Please note that any future addition of living space or other property improvements will likely require testing and a percolation certification plan. Any deviations from the site plan submitted with the building permit will be subject to further review by this Department.

Any questions regarding this decision may be directed to the Well and Septic Program of the Howard County Health Department.

Respectfully,

RE: Waiver request of Perculation Certification Plan requirement

Dear Mr. Oswald:

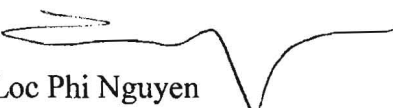

My name is Loc Phi Nguyen. I am the current owner of the home located at 13731 Briaridge Court, Highland, Maryland 20777 since 2012. There were 3 previous owners including the builder.

I am trying to convert an existing room (a screened porch) into a livable area. The screened porch is next to my kitchen and I plan to open the walls to the screen porch to extend the kitchen out to the screened porch. Also, I want to put walls around the screened porch to make it into a livable room and removing the screens. There will be no major changes and just mostly cosmetic changes to the room such as adding a ceiling fan, and vinyl flooring to the screened porch.

I am requesting a waiver under Sec. 3.803 of the Howard County Code because the modification is in compliance with the intent and purpose of the subtitle of the Code and that the modification does not lessen the health or environmental requirements of this subtitle of the Code and the requirements of COMAR 26.04.02.

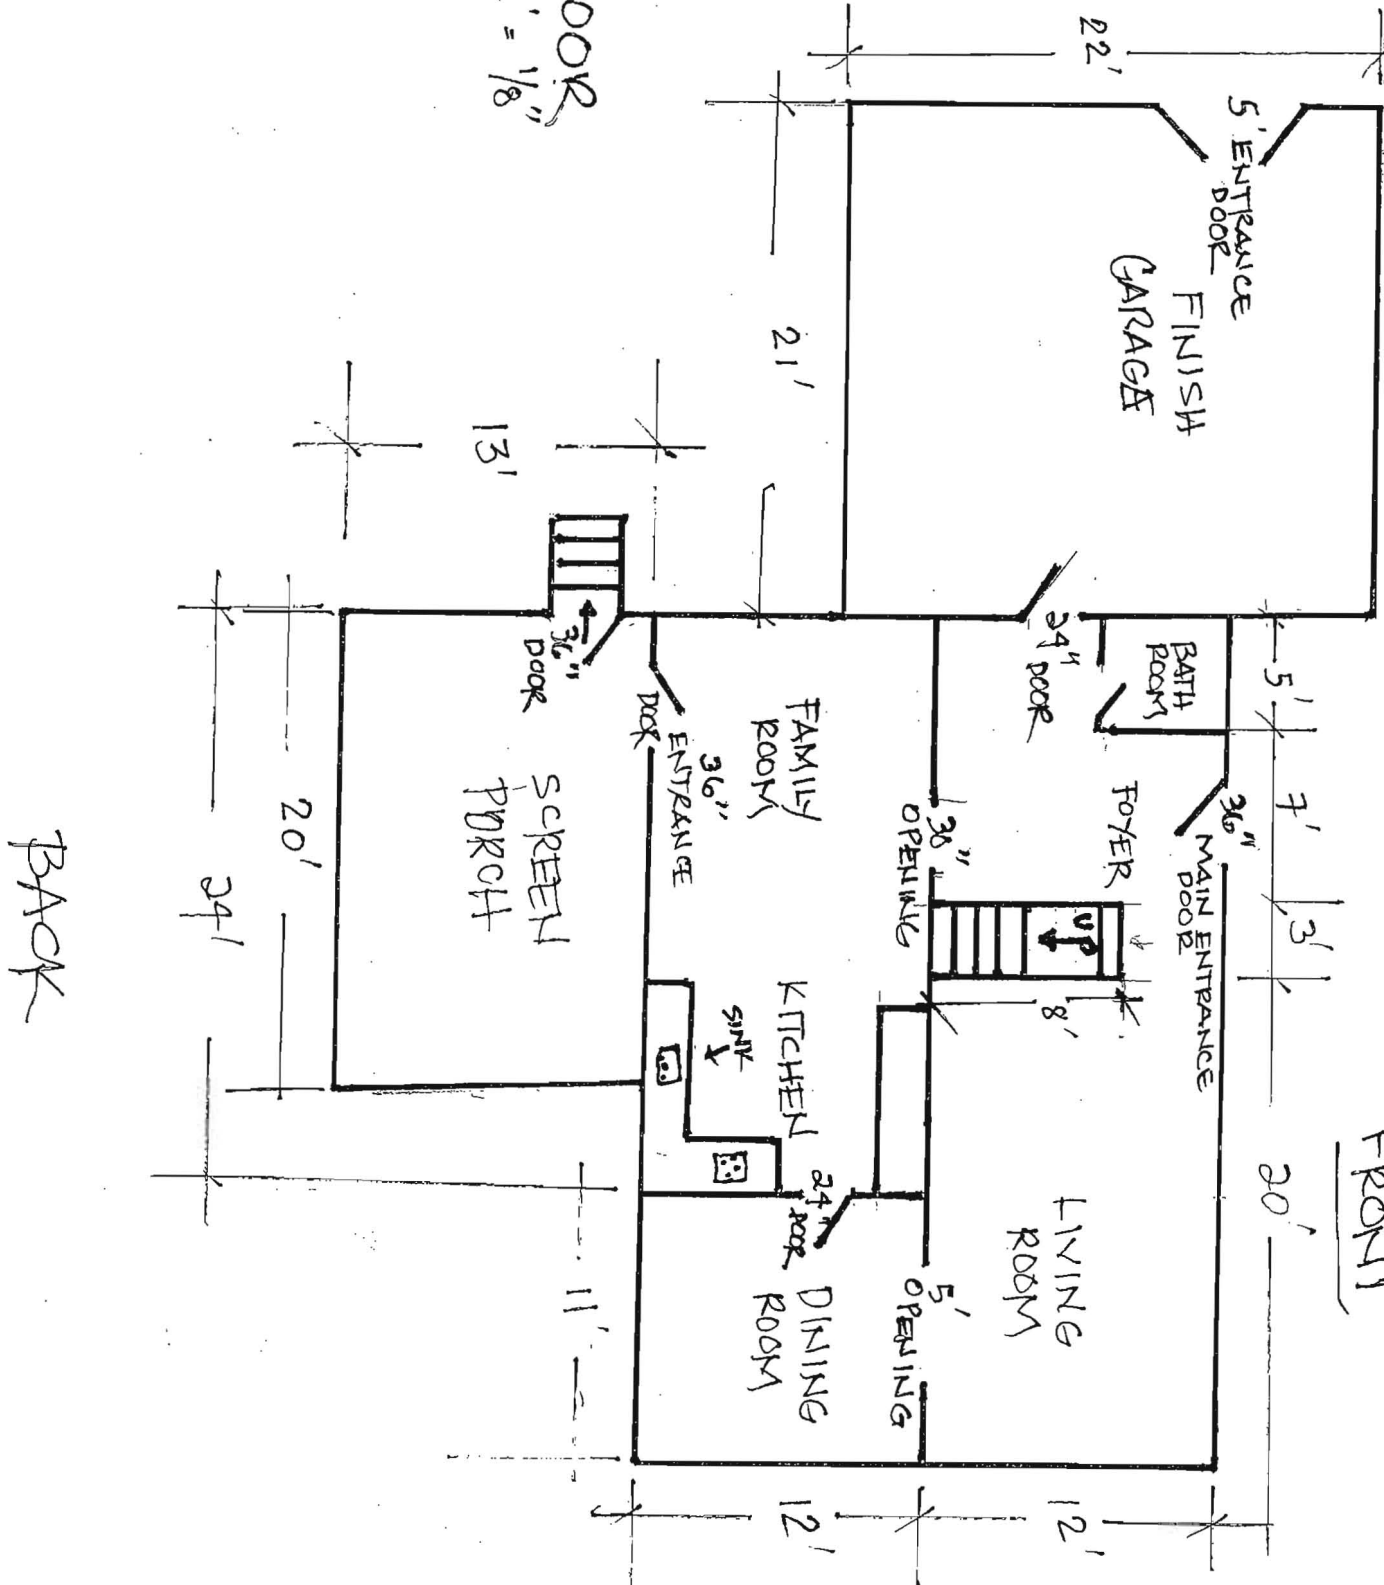

Thank you for your consideration.

Sincerely,

Gentleman:

The waiver request has been approved however the building permit that accompanied the paperwork doesn't have a signature block for Health Department approval. When you come into the office to pick-up the paperwork, please complete one of the building permit applications at our front counter, and I will sign it at that time.

Please contact me with any questions.

Hi Mr. Oswald. I left a message for you earlier today. I was told by the contractor that he already submitted the site plan and floor plan and it takes 5-7 days to get it processed. I just wanted to make sure you got everything and wanted to know if there is anything else you need for me to get this moving forward. Thanks.

Mr. Nguyen:

This office is in receipt of your waiver request to the Percolation Certification Plan for a screened-in porch conversion to livable space.

We will also need a site plan and floor plans of the existing house plus proposed changes. The site plan should be to scale (1:30 – 1:100) and include the house foot print (screened in porch highlighted), plus the well and septic components. I've attached a copy of the septic permit to assist you with this plan.

Should you have any questions, please don't hesitate to ask.

Hank
