Re: 7409 Oakcrest Lane
Clarksville, Maryland

Dear Stewart,

We are in the process of completing the construction of a new home at the above referenced site where a previous home had existed. As part of our scope, we utilized the existing well however no well tag had existing prior to construction.

Currently, the well has been chlorinated and the water is being tested for potability. We are requesting that a new well tag be ordered at your earliest opportunity in order for the water testing facility to record on the certificate.

Should you have any questions, please do not hesitate to contact me at 301-924-9550.

Sincerely,

Mautaz S. Ezzat

Re; 7409 Oakcrest Lane
Clarksville, Maryland

Dear Brian,

We are in the process of obtaining a raze permit to remove the existing dwelling at the above referenced address. Existing well and septic lines from this dwelling will be capped off and protected prior to any excavation. Additionally, we will barricade both the well and the septic tank with stakes and protective ribbons to keep all equipment away from these areas.

Please forward a letter to us at your earliest in order to release the raze permit. Should you have any questions or concerns please, do not hesitate to contact me at 301-924-9550.

Best Regards,

Mautaz S. Ezzat
President
