Mr. Young,

- Well and septic must be shown on plan.
- Plan must be to scale.
- Proposed Addition must be shown on plan.
- Floor plans for the existing house must be submitted.
- Floor plans for the proposed addition must be submitted.

In addition, you must submit a Percolation Certification Plan showing the well with 2 alternate wells, the septic system and the proposed addition. Also, a BAT Plan showing elevations for the upgraded tank.

Your building permit will be placed "on hold" until all Health Dept. requirements are met. If you have any questions or correspondence, I can be reached at the above address or by telephone at (410) 313-2775.
