Dear Mr. Cabahug-

Thank you for taking the time to speak with me regarding the well line at 14370 Musgrove Farm Ct. This letter is to confirm that we understand the frost line is 36" below the finished grade. We will be adding additional fill and the entire well line will be at least 36" below grade when the project is complete.

Again, thank you for your help with this matter. Please let me know if you have any questions.

Sincerely,

Mark Kemp

Construction Manager

Subject: 14370 Musgrove Farm - Well Line

Hello Mark,

Please scan a statement on a company letter head certifying that the entirety of the well line at the above address will have adequate cover to meet the 36" frost line upon completion of the project. Upon receipt of this signed statement, which will be incorporated with the file record, the well line inspection will be approved.

If there are further questions, please reach out to the Office.

Bests,

Joseph C. Cabahug - LEHS

Hi Kevin,

I planning on marking the well line, pool, and future pavilion at the above address tomorrow morning. I should be finished by noon. If you could stop by at some point and verify for me, that would be great. I'm trying to submit my building permit this week.

Thanks,
Dan Murphy, RLA
