PERC CERTIFICATION

This area designates a private sewage easement of 10,000 square feet as required by the Maryland State Department of The Environment for individual sewage disposal. Improvements of any nature in this area are restricted until public sewage is available. These easements shall become null and void upon connection to a public sewage system. The County Health Officer shall have authority to grant variances for encroachments into the private sewage easements. Recordation of a modified sewage easement shall not be necessary.

Percolation test holes shown hereon have been field located and shown as "●".

The lots shown hereon comply with the minimum ownership width and lot areas as required by the Maryland State Department of The Environment.

Percolation areas and water wells for adjoining lots have been shown where pertinent.

APPROVED: For Private Water and Private Sewage System

Raymond Baker 3-26-99
County Health Officer *Bill* DATE

SURVEYOR'S CERTIFICATION

I hereby certify that to the best of my knowledge and belief that the information shown hereon is correct. All well and septic systems within 100 feet of this property are shown on this plan. All septic test locations shown have been field located.

- o --- denotes iron pipe to be set.
 --- □ --- denotes concrete monument to be set.
- B.R.L. denotes building restriction line.
- this area designates a private sewage easement of a minimum of 10,000 S.F. as required by the Maryland Department of the Environment for individual sewage disposal. Improvements of any nature in this area are restricted until public sewage is available and servicing any residential structures constructed on these buildable sites. This easement shall become null and void upon connection to a public sewage system. The County Health Officer shall have the authority to grant variances for encroachment into the private sewage easement. Recordation of a modified sewage easement shall not be necessary.
- Percolation test holes shown hereon have been field located and shown thus:
 • Passed Hole o Failed Hole
- For flag or pipestem lots, refuse collection, snow removal, and road maintenance are provided to the junction of the flag or pipestem and road right-of-way and not onto the flag or pipestem lot driveway.
- Driveways which serve two or more lots must meet the requirements of the Howard County Fire Department.
- This plat is based on a field run monumented boundary survey performed April, 1998 by O'Connell & Lawrence, Inc.
- Areas indicated on this plat are more or less.
- The Forest Conservation Easement has been established to fulfill the requirement of Section 16.1200 of the Howard County Code, Forest Conservation Act. No clearing, grading or construction is permitted within the forest conservation easement; however, forest management practices as defined in the Deed of Forest Conservation Easement are allowed.
- Driveway(s) shall be provided prior to residential occupancy to insure safe access for fire and emergency vehicles per the following minimum requirements:
 a) Width: 12 feet (16 feet serving more than one residence)
 b) Surface: 6 inches of compacted crusher run base with tar and chip coating
 c) Geometry: Maximum 15% grade, maximum 10% grade change and minimum of 45-foot turning radius
 d) Structures (culverts/bridges): Capable of supporting 25 gross tons (H25 loading)
 e) Drainage elements: Capable of safely passing 100-year flood with no more than 1 foot depth over driveway surface
 f) Structure clearances: minimum 12 feet
 g) Maintenance: Sufficient to insure all weather use
- Developer reserves unto itself, its successors and assigns, all easements shown on this plat for storm drainage, other public utilities, and forest conservation (designated as "Forest Conservation Area"), located in, over and through Preservation Parcel "A" or portions thereof, and shown on this plat as the Forest Conservation Area. Any and all conveyances of aforesaid lots shall be subject to the easements herein reserved, whether or not expressly stated in the deed(s) conveying said lot(s). Developer shall execute and deliver a deed(s) for the easements herein reserved to Howard County, with a metes and bounds description of the Forest Conservation Area. Upon completion of the public utilities and their acceptance by Howard County, and, in case of a forest conservation easement(s), upon completion of Developer's obligation under the Forest Conservation Installation and Maintenance Agreement executed by the Developer and the County, and the release of the Developer's surety posted with said Agreement, the County shall accept the easements and record the deed(s) of easement in the Land Records of Howard County.
- Stormwater management for this project is being provided as follows: Water Quantity, Lots: Exempt Water Quality, Lots: Exempt
- Lots shown on this plat comply with the minimum ownership width and lot areas as required by the Maryland State Department of Health Regulations.
- There are no wetlands on site that will be disturbed and required 401 and 404 wetland permits from the State of Maryland.
- No clearing, grading or construction is permitted within the required wetlands and stream buffers or forest conservation areas.
- The Preservation Parcel associated with this subdivision is to create an environmental enclave to preserve the existing natural features of this property.
- The Preservation Parcel will have private ownership.
- Preservation Parcel "A" is encumbered by an easement agreement with Howard County, Maryland and Ridgeview H.O.A. This agreement prohibits further subdivision of this parcel, outlines the maintenance responsibilities of the owner(s) and enumerates the uses permitted on this property.
- The Ridgeview H.O.A. Articles of Incorporation were approved by the State Department of Assessment and Taxation on July 9, 1998.
- Existing structures on Preservation Parcel "A" are to remain.
- An updated (traffic volumes) noise study is required when/if Parcel "A" develops in the future.
- For flag or pipe stem lots, refuse collection, snow removal and road maintenance are provided to the junction of the flag or pipe stem and the road right of way line only and not onto the flag or pipe stem lot driveway.
- Stormwater management facilities will be required on the parcels shown on this plat in accordance with the Design Manuals. Prior to signature approval of the site development plan, the developer will be required to execute the developers agreement for the construction of the stormwater management facility and a maintenance agreement.

PERC CERTIFICATION

This area designated a private sewage easement of 10,000 square feet as required by the Maryland State Department of the Environment for the proposed lots. The area is shown on the attached map. These easements shall become null and void upon connection to a public sewage system. The County Health Officer shall have authority to grant variances for encroachments into the private sewage easements. Recordation of a modified sewage easement shall not be necessary.

Percolation test holes shown hereon have been field located and shown as "●".

The lots shown hereon comply with the minimum ownership width and lot areas as required by the Maryland State Department of the Environment.

Percolation areas and water wells for adjoining lots have been shown where pertinent.

APPROVED: For Private Water and Private Sewage System

County Health Officer _____ DATE _____

SURVEYOR'S CERTIFICATION

I, hereby certify that to the best of my knowledge and belief that the information shown on this plan is true and correct. All well and septic systems within 100 feet of this property are shown on this plan. Septic test locations shown have been field located.
