APPLICATION FOR PETITIONING THE HOWARD COUNTY OFFICE OF PLANNING AND ZONING FOR VARIATIONS FROM THE REQUIREMENTS OF THE HOWARD COUNTY SUBDIVISION AND LAND DEVELOPMENT REGULATIONS

I/WE the undersigned fee simple owner(s), hereby make application to the Howard County Office of Planning and Zoning to relax the minimum requirements of the Subdivision and Land Development Regulations of Howard County effective February 7, 1976. The undersigned hereby certifies the information supplied herewith is correct and complete and further, confirms that the regulations and policies as referred to in ~~the~~ attached are understood.

Donald R. Reuwee — 1/6/87

(Signature of Owner/Developer -Contract Purchaser) (Date)

If the applicant is owner's/developer's agent, written documentation from owner/developer is required. Cite the specific section of the County code which a waiver is being requested and state the justification for this variance request:

Section 16.113 F 7 a, b, c See Attached

Subdivision Name/Property Identification: Howard County Sanitarium (Huntsman's Ridge)

Location of Property: (General description in relation to nearest existing public road)

Use of Property: Existing unimproved

Proposed minor subdivision

Tax Map No. 2, Parcel No. 20, Zoning R

Election District 4, Total Area of Property 25.1 ± Acres.

Reference to Applicable Plans: Howard County Sanitarium (Huntsman's Ridge)
(Board of Appeals, Subdivision Plans, etc.))

Proposed Conveyance(s) _____ (Number) Area: _____ (Acres)

(Huntsman's Ridge)
HOWARD COUNTY SANITARIUM
VARIANCE PETITION

Pursuant to Section 16.103.C of the Howard County Subdivision and Land Development Regulations, we request a waiver from Section 16.113.F.7. a, b, and c to allow four (4) proposed lots to use an existing entrance constructed by the State Highway Administration to Old Frederick Road, a Major Collector Road as shown on the 1981 General Plan of Highways. The four (4) lots are to have access by means of a 25' use-in-common easement to Frederick Road for which this variance is requested.

JUSTIFICATION:

(1) Access to these lots from Beetz Road is impractical due to the shape of the property and due to steep slopes.

(2) Constructing a parallel road along the Frederick Road frontage would be impractical due to the presence of an outlot on which is located a house and driveway.

(3) Constructing a parallel road or cul-de-sac to service only 4 lots would result in extraordinary hardship for the property owner due to topography.

(4) The location of the proposed use-in-common access is at the point of an existing entrance constructed by the State Highway Administration for access to Old Frederick Road in 1971.

(5) The proposed access is exactly 500' from the centerline of Beetz Road, which is the minimum spacing allowed for intersections along a Major Collector Road. This access is at the same location as would be a cul-de-sac but would likely introduce less traffic since it would serve only four lots.

RE: VP-87-81, Huntsman's Ridge

Dear Gentlemen:

On February 2, 1987, the Subdivision Review Committee, in concurrence with the Director of the Office of Planning and Zoning, considered your request for variance from Section 16.113.F.7 of Howard County Subdivision and Land Development Regulations to allow four (4) proposed lots to use an existing driveway for use-in-common access to a major collector road. The subject property is located on the north side of Frederick Road, and east side of Beetz Road, in the Fourth Election District of Howard County, MD.

The Subdivision Review Committee has recommended to the Planning Director that the above-referenced variance be denied in accordance with the comments dated January 30, 1987, from the Department of Public Works (see attached). The petitioner submitted insufficient information to substantiate extraordinary hardship or practical difficulty for a waiver to allow direct driveway access for four (4) proposed lots which could be further subdivided and an eighteen (18) acre residue or second parcel representing the fifth (5th) lot which also could be further subdivided. Therefore, the applicant should provide a public road to serve the proposed lots, the remaining residue or second parcel and any subsequent resubdivision lots in the future since the property is located on a major collector road which has controlled access.

If you wish to schedule a meeting with the Subdivision Review Committee to provide additional information or justifications to support the variance petition and/or submit additional information or justifications without having a meeting, please contact this office at the telephone number listed below. The Subdivision Review Committee requests that the additional information and/or justifications to support the variance petition be submitted for review by the County prior to the meeting date. The meeting must be scheduled within fifteen (15) calendar days from the date of receipt of certified letter and will be held for the sole purpose of reviewing additional information. If you decide not to schedule a meeting or submit additional information, the variance petition will be processed after the fifteen (15) day notification period for final action by the Planning Director.

DEPARTMENT OF PUBLIC WORKS OF HOWARD COUNTY
BUREAU OF ENGINEERING

January 22, 1987

TO: Office of Planning and Zoning
Division of Land Development

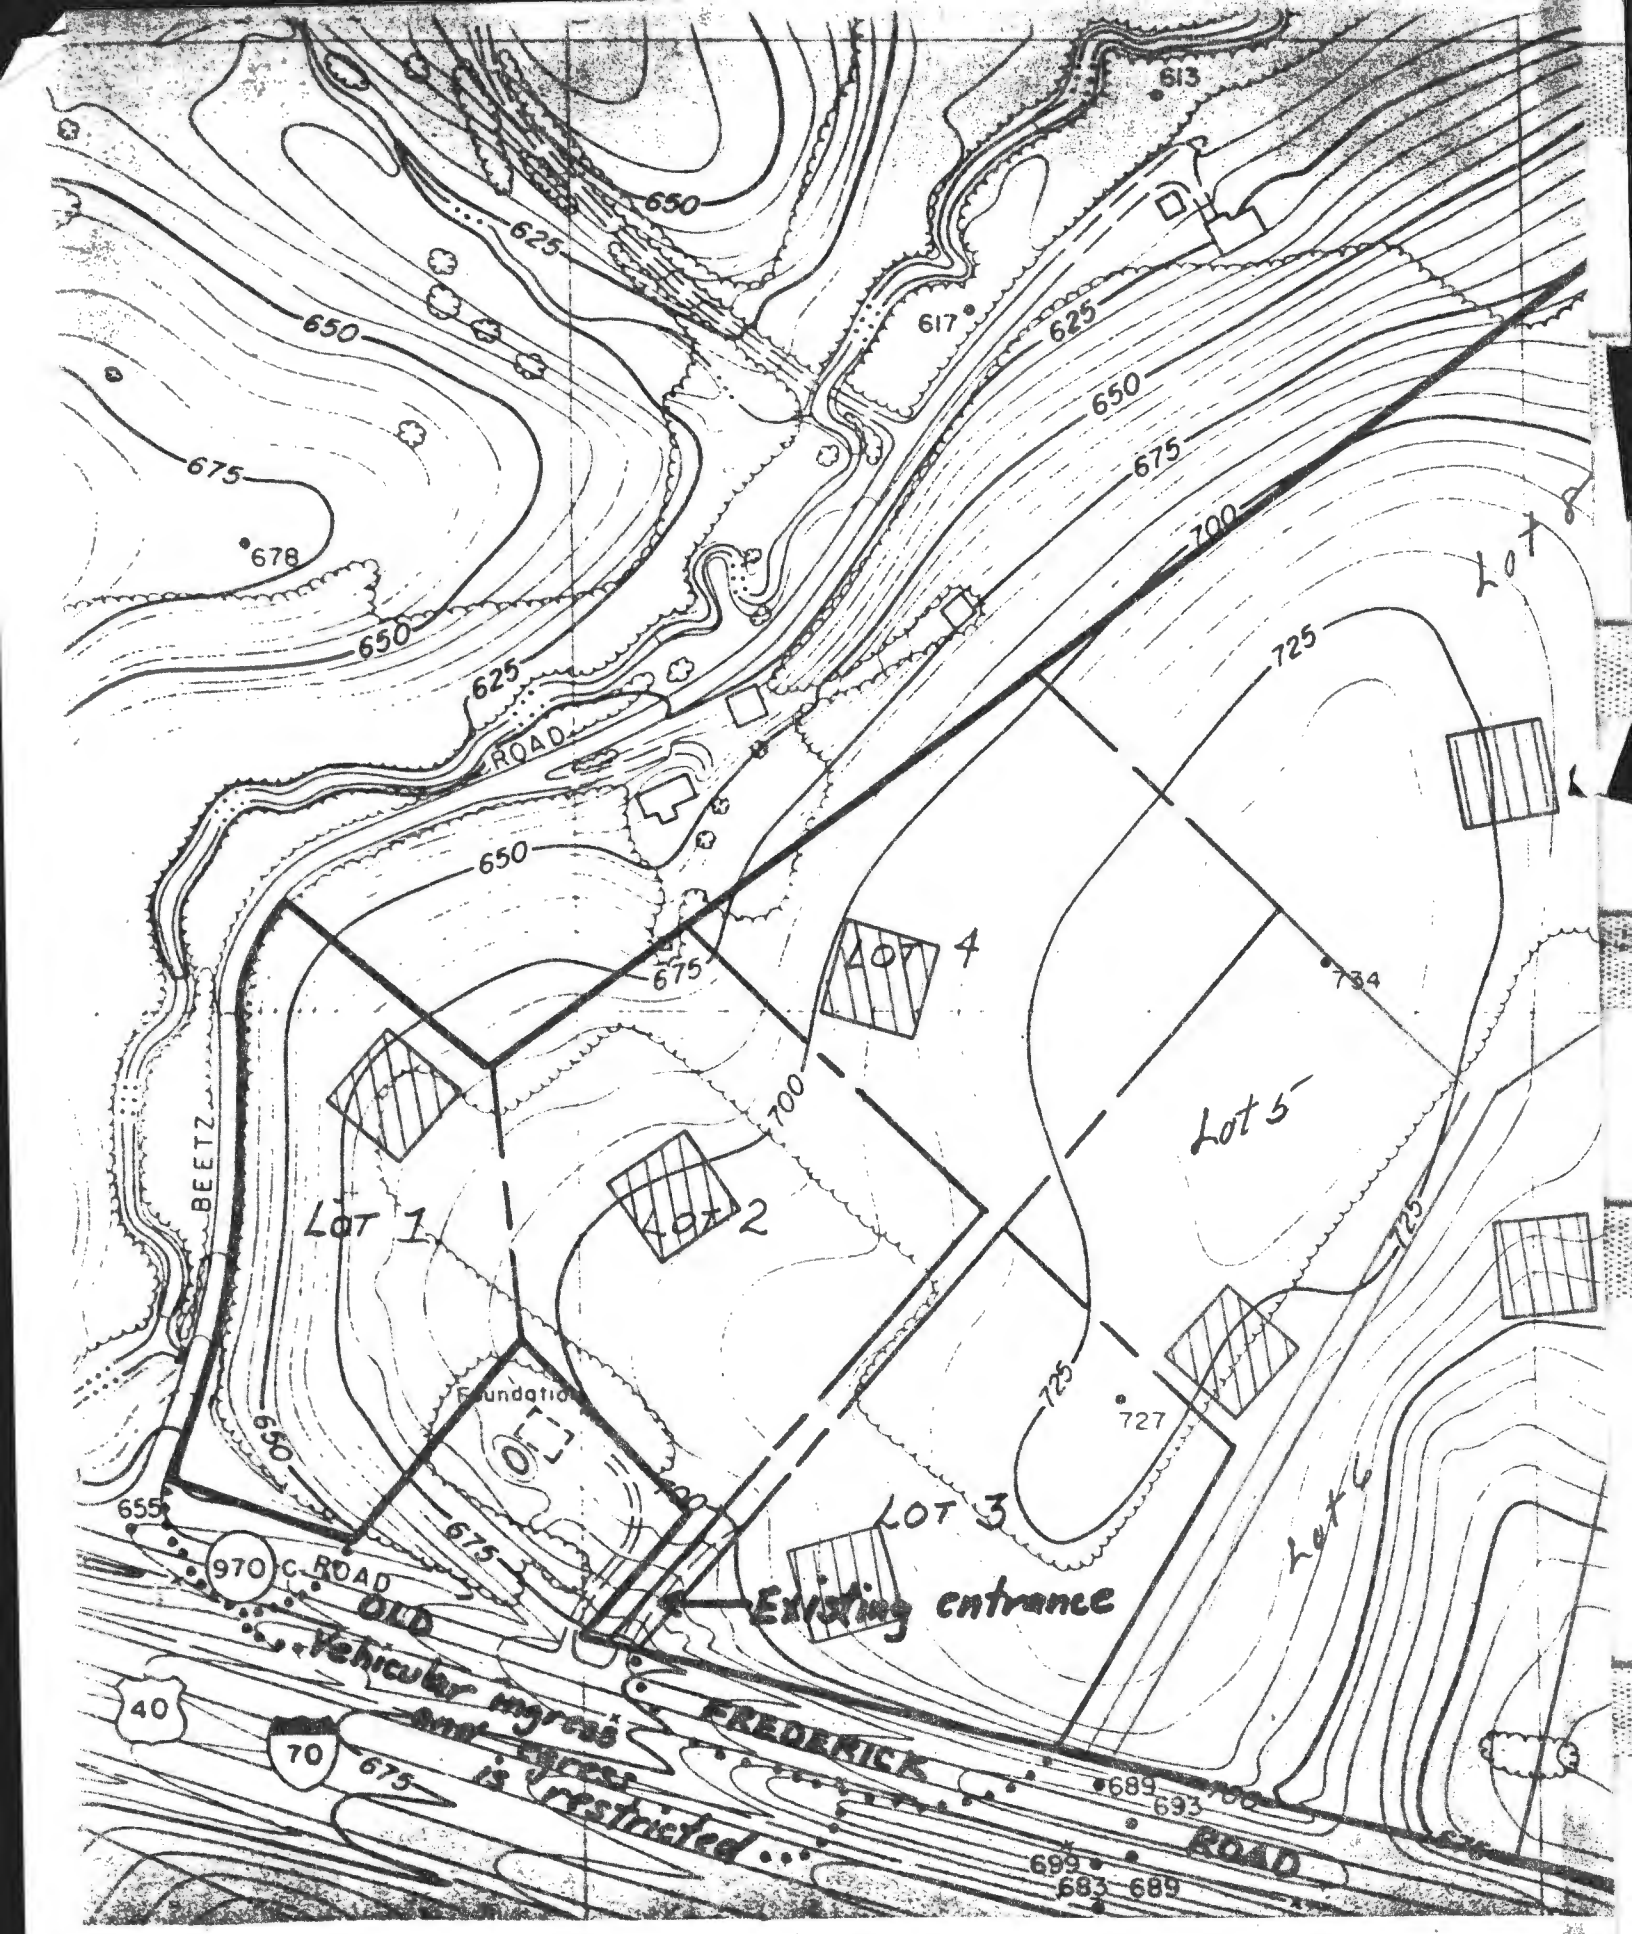

FROM: Bureau of Engineering
Department of Public Works

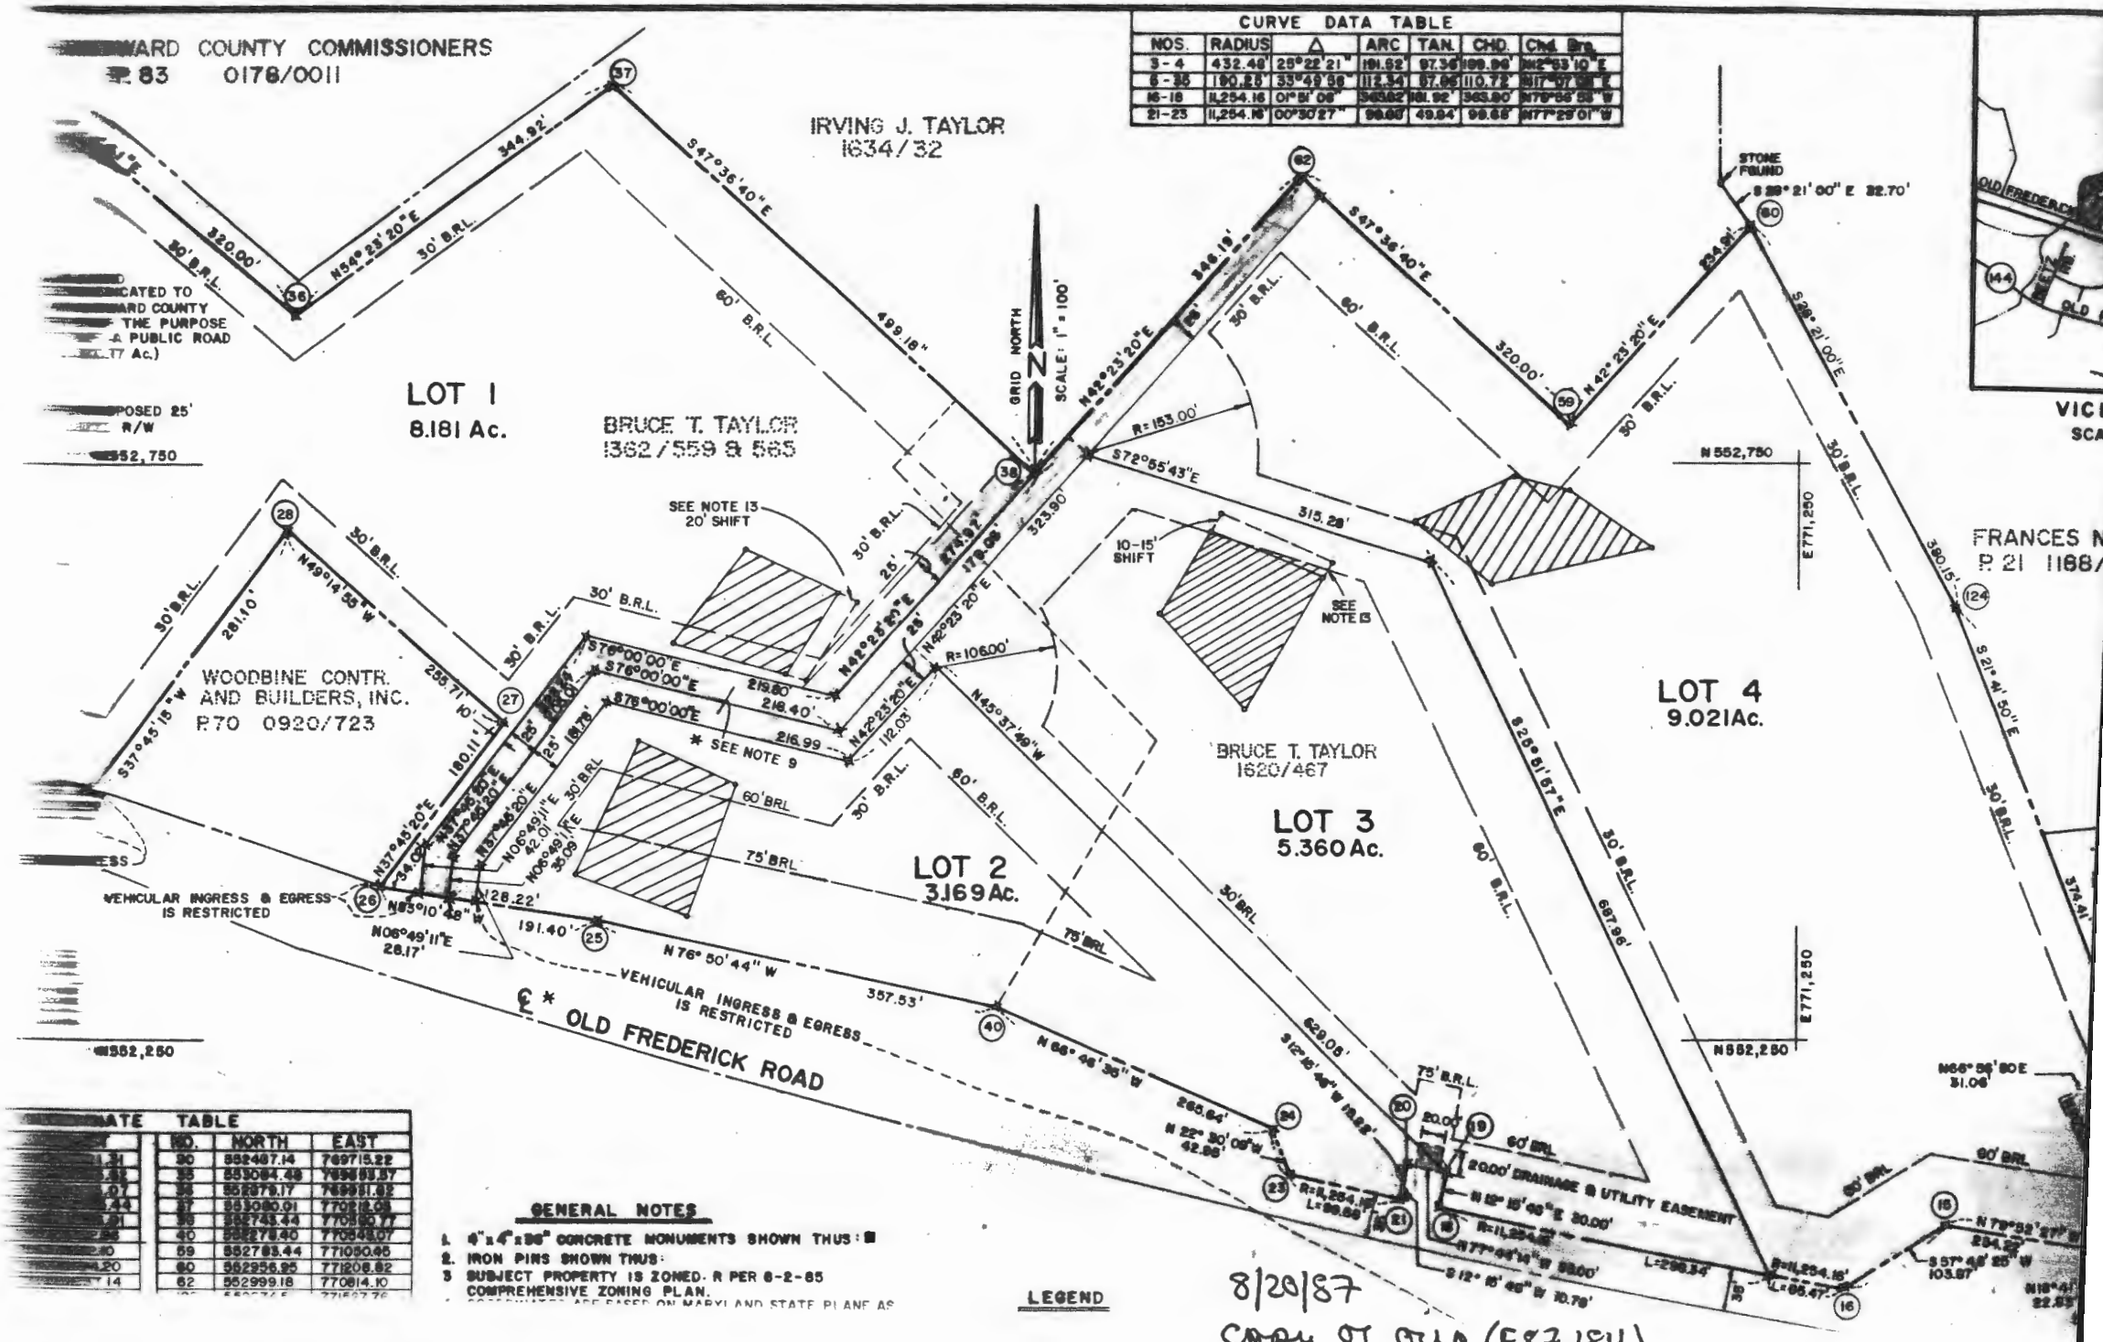

RE: Comments-File No.

This office recommends denial from Section 113.7.a.(2) of the Howard County Subdivision and Land Development Regulations since the proposed road does not provide adequate collection.

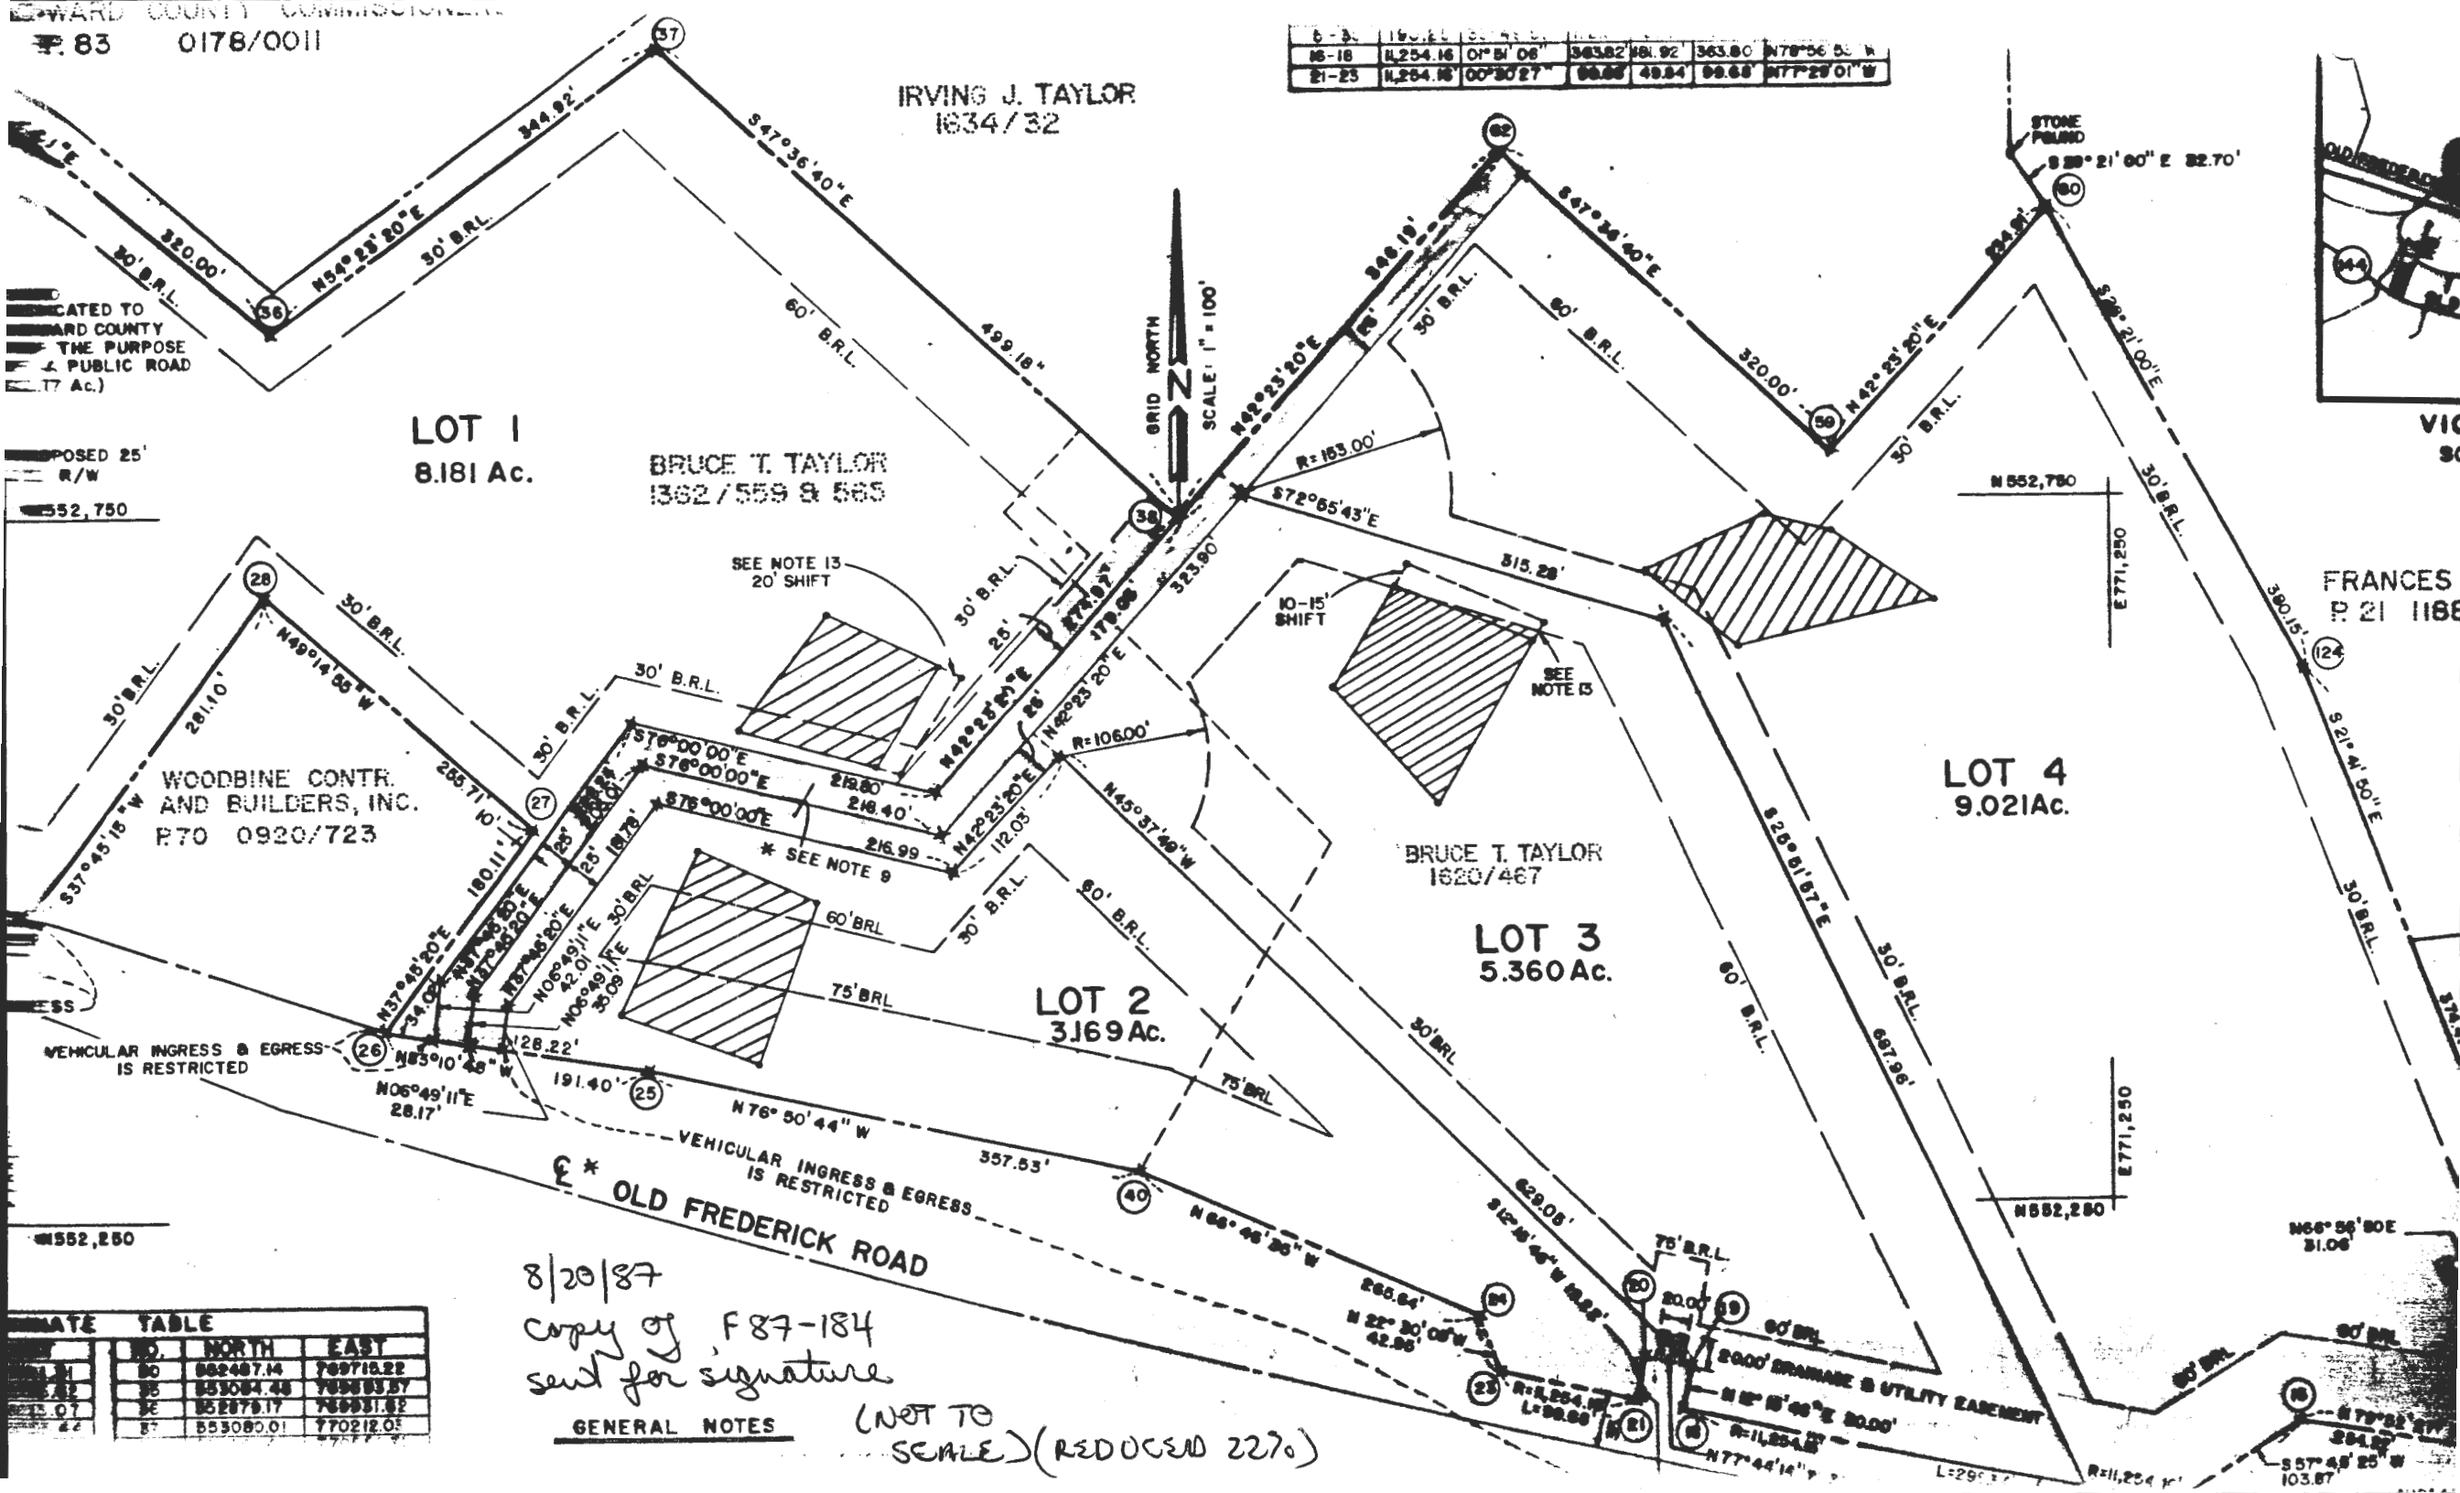

The parcel consists of forty-seven (47) acres therefore the subdivision consists of three (3) lots requiring two (2) lots to be developed through major subdivision procedures. Provide public road off Route 99 to serve the proposed lots and the remaining parcel.
