RE: Percolation Testing
Mount Orange Estates
Lots 5 and 6
Tax Map 34 Parcel 144

To Whom It May Concern:

Percolation testing conducted January 20, 1989 on the above referenced property indicated satisfactory soil conditions.

Approval is contingent upon submission by a registered engineer of a plat showing certified test hole locations and a suitable house and well site.

This should be submitted within sixty (60) days to allow field verification if necessary.

If you have any questions regarding this matter, please feel free to contact me at the above address or by calling 461-9933.

Very truly yours,

GENERAL REQUIREMENTS:

The Petitioner shall note that all requests for variances must meet the following requirements of section 130.B.2.a.(1) through (5) of the Howard County Zoning Regulations in order to be approved:

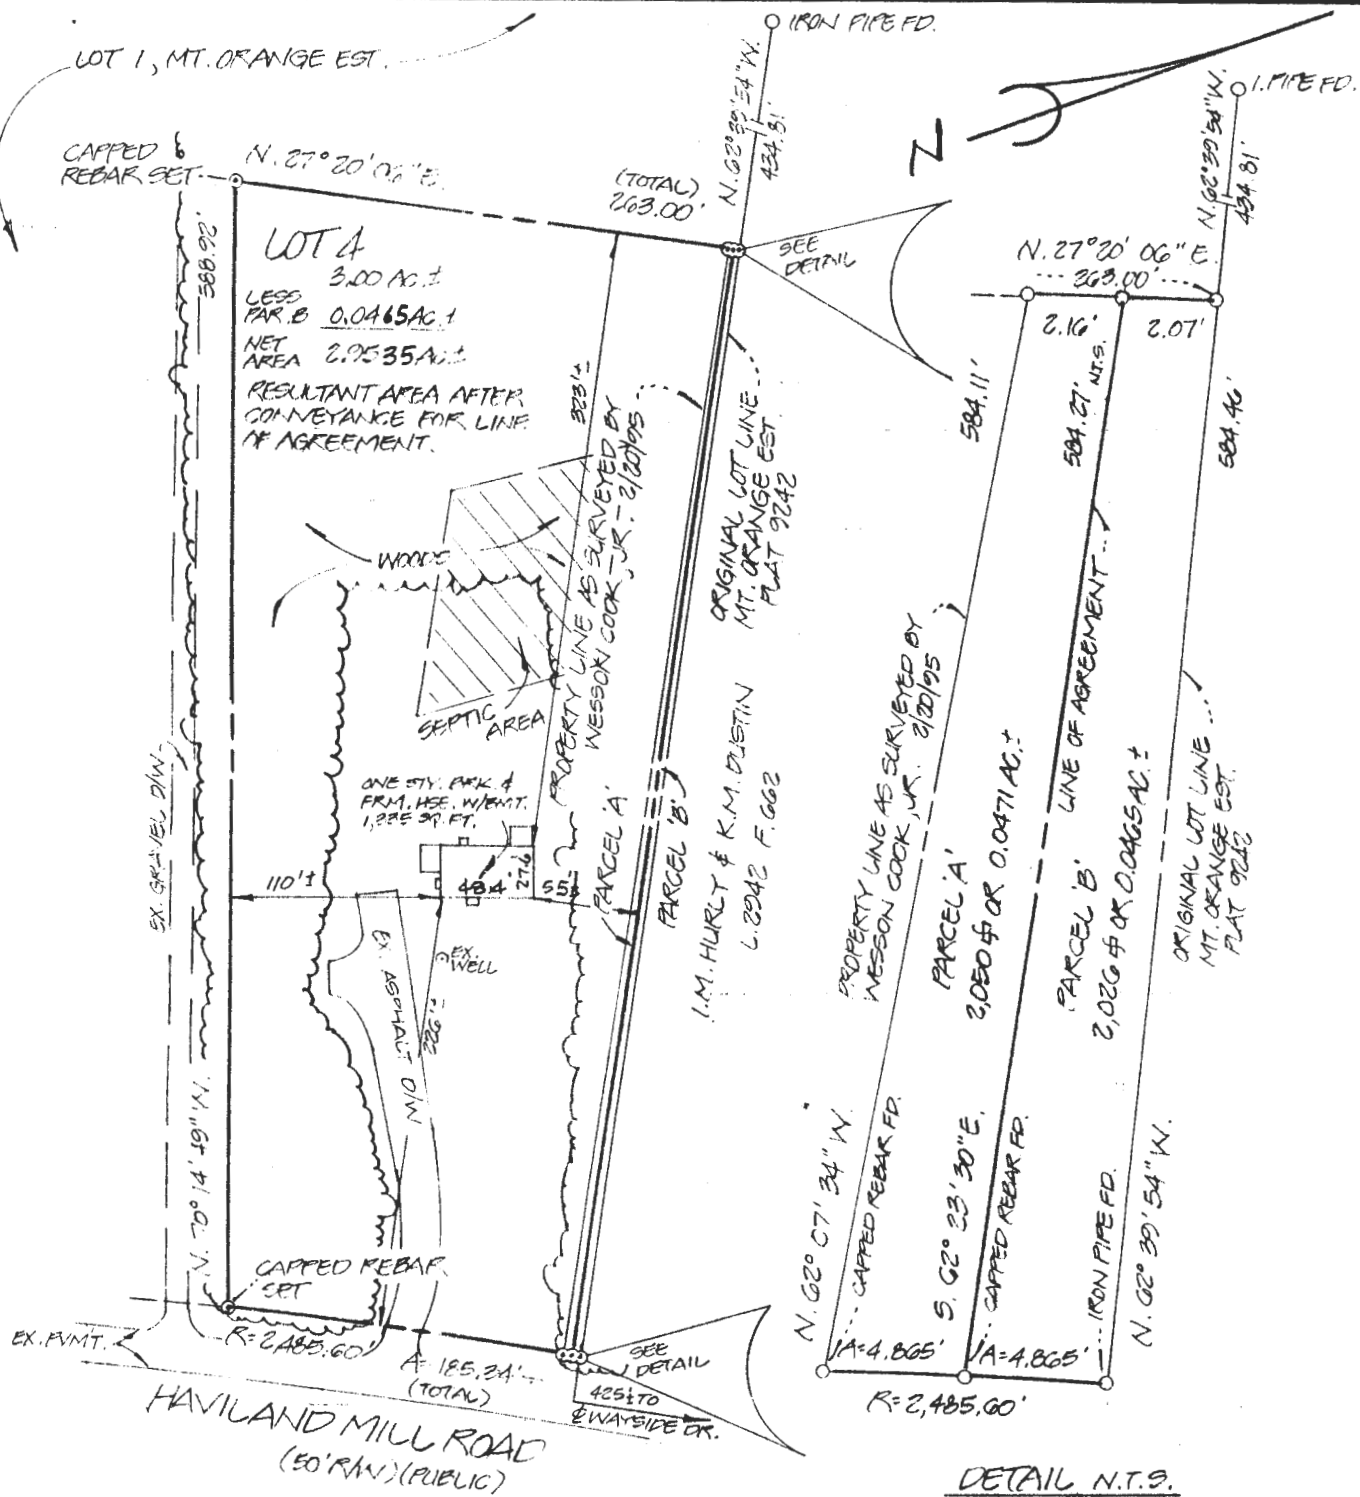

(1) That there are unique physical conditions, including irregularity, narrowness or shallowness of lot or shape, exceptional topography or other existing features peculiar to the particular lot; and that as a result of such unique physical conditions, practical difficulties or unnecessary hardships arise in complying strictly with the bulk provisions of these regulations.

2. That the variance, if granted, will not alter the essential character of the neighborhood or district in which the lot is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare.

3. That such practical difficulties or hardships have not been created by the owner provided, however, that where all other required findings are made, the purchase of a lot subject to the restrictions sought to be varied shall not itself constitute a self-created hardship.

4. That within the intent and purpose of these regulations, the variance, if granted, is the minimum variance necessary to afford relief.

5. That no variance be granted to the minimum criteria established in Section 131 for special exception uses, except where specifically provided therein or in an historic district. Nothing herein shall be construed to prevent the granting of variances in any zoning district other than to the minimum criteria established in Section 131 except as provided therein.

Subject: Residential District Variance Petition for 6620 Haviland Mill Road,
Clarksville

The attached Residential District Variance Petition Form and Variance Plan Plat for my property located at 6620 Haviland Mill Road in Clarksville, Maryland demonstrate that the negotiated settlement of an overlap in property with the adjoining property will result in:

- (1) Unique physical conditions peculiar to the lot and that as a result of such unique physical conditions, practical difficulties or unnecessary hardships arise in complying strictly with the bulk provisions of these regulations.
- (2) That the variance, if granted, will not alter the essential character of the neighborhood or district in which the lot is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare.
- (3) That such practical difficulties or hardships have not been created by the owner.
- (4) That within the intent and purpose of these regulations, the variance, if granted, is the minimum necessary to afford relief.

I respectfully request, therefore, that the Board of Appeals approve the Residential District Variance Petition for this property since it meets the requirements of section 130.B.2.a. of the Howard County Zoning Regulations.
