FROM: Craig Williams, Director C.W.  
Water and Sewerage Program

RE: Percolation Certification Plat  
Proposed Subdivision - Streaker Property  
Route 144

This is to advise that a complication has come to our attention regarding the well site for proposed Lot 1. The concern is that adequate separation may not have been provided between this well and the installed septic system on the adjacent Chance Land Farm Tenant House.

Completion of the well and processing of the plat is delayed until a determination can be made as to whether or not adequate separation between the well and septic system has been provided.
