Subject: Demolition permit application

This is in reference to 4402 route 97 Brookeville Md. I recently purchased this property and am going to completely demolish the house and build a new one. The well was dug in the 80's and the casing extends out of the ground about a foot. The location is about 75 feet from the present structure. I wish to use this well for the new structure. The septic tank is concrete and will not be abanded but will be pumped and exposed for your inspection and any repairs/additions will be performed during the new house construction phase. Therefor I would like a letter authorizing demolishon of the current structure.

Thank You
