Bonita Springs, Fla. 34135

During the construction of the development a drywell was located.  
The drywell was located to the rear of the demoed building, 39°15'43.99"N - 76°48'58.45"W  
The drywell had no liquid to pump .  
The drywell was excavated and debris removed and hauled offsite.  
The area was restored with compactable clean fill.
