- House is served by a shared community septic system. As part of the general permit for the community system, items previously installed or under construction include individual septic tank, connection from tank to common effluent line, community system headworks, and shared disposal fields.
- This portion of the septic installation permit is strictly limited to authorization of the individual pump in the pump pit with associated piping and electrical controls, and installation of the individual house sewer line. Location as per the signed building permit site plan, copy attached.
- Contact Health Department for inspection before covering the installation.
- For the pump test 48 hour advance notice of inspection is required. Where adequate notice has been provided, installation may proceed to completion one-half hour after the scheduled inspection time.

Re: Permit Number B00106062
Ashleigh Knolls, Lot 120

Dear Ms. Corbin:

Winchester Homes, Inc. would like to revise the above permit by changing the house type from a Browning to a Chelsea II. The Chelsea II will also have a finished basement with a full bath and a rear solarium.

Attached are (4) copies of the revised site plan and (1) copy of the new worksheet. Winchester Homes, Inc. realizes that we will have to pay any difference in the amount and we will only be reimbursed the excise fees if it is less. I will take a copy of the new site plan over to the health department today, so they will sign off.

If you should have any questions, please call me at (301) 489-1144. Thank you for your help in this matter.

Sincerely,
Winchester Homes, Inc.
