Re: Lot 72 Known as
3718 Appleby Court
Glenwood, Maryland

Disposition on septic system is as follows:

Sanitary pipe from house will be minimum 18" under grade and will follow appropriate slope to septic tank which will be approximately 10 feet from house and 3 feet under grade. Outlet from septic tank, with appropriate slope, to pump tank which will be approximately 5 feet away from septic tank which in turn will be pumped to distribution box.

This system will conform to all County codes and the home owner will be responsible for any and all changes and will not hold the County responsible for any cost all changes need to be made.

Necessary Modification to Septic Easement

Dear Mr. Putman:

A site inspection was recently conducted at the above referenced property in conjunction with review of the well permit application. The well permit application was approved and processed.

Due to potential water table concerns with the lower third of the approved septic area on your property, modification to the existing septic area is necessary. Please find enclosed a copy of the approved final plat for the property indicating the modification to the septic area. I trust that this modification shall not adversely effect potential house site.

If you have any questions or concerns regarding this matter, please do not hesitate to contact me at the address below or by calling (410) 313-2640.

Thank you in advance for your cooperation in this important matter.

Sincerely,

Donna K. Soe, R.S.
