RE: Percolation Testing
Harold Johnson Property
Lot 3 - Highland Road

Dear Mr. & Mrs. Dutton:

Enclosed please find your returned percolation test application and your voided \$100.00 check to cover testing fees.

I have been unable to confirm with either the County Tax Office or Land Records Office that the 1.32 acre property you have proposed for percolation testing is a currently recorded parcel of land. As I explained at the time of your application, unless this parcel is already recorded as a separate property, it is not eligible for testing because it is not large enough to qualify for subdivision under current county regulation.

I would be pleased to accept your test application if you can produce either a letter from the Tax or Land Records Office indicating this property is currently a separately recorded lot or a ruling from the Zoning Department that an exception has been granted allowing you to subdivide this property in the manner you have proposed.

If you are aggrieved by this decision, you may request a departmental hearing on this matter by contacting either myself or Frank Skinner, Assistant Director of the Bureau of Environmental Health. If the decision at that hearing is not satisfactory to you, additional formal steps of appeal are available.

Very truly yours,

Craig Williams
