Drawings: Where a parcel of land and/or building(s) as defined in the Zoning Regulations is involved in that which is being petitioned, petition forms must be accompanied by the number of required drawings as follows:

17 copies if state road is involved
13 copies if county road is involved

and showing:

- (a) Courses and distances of outline boundary lines and the area itself.
- (b) North arrow.
- (c) Existing zoning of subject property and adjoining property.
- (d) Location, extent, boundary lines and area of any proposed change in existing zoning and/or use.
- (e) Any existing or proposed building(s), structures, signs, streams, quarries and other objects and/or uses on subject property which may be relevant to the petition

Enclosure

CC: Mr. Robert E. Blackert

In response to the recently recieved letter from your office, please allow me to describe some aspects of our operation. Our operation is broken down into 3 categories: Nursery, Farming, and Landscaping. We have approximately 25 acres in nursery production and 20 acres in hay crops on a 56 acre tract of land.

Our Nursery Operation consists of buying small trees and bushes from larger nurseries and planting them in ours to grow to a larger landscape size. We then dig them after a reasonable growing period to use on our landscape jobs or wholesale them to other nurseries.

Our Farming Operation consists of growing hay for horse and cattle feed.

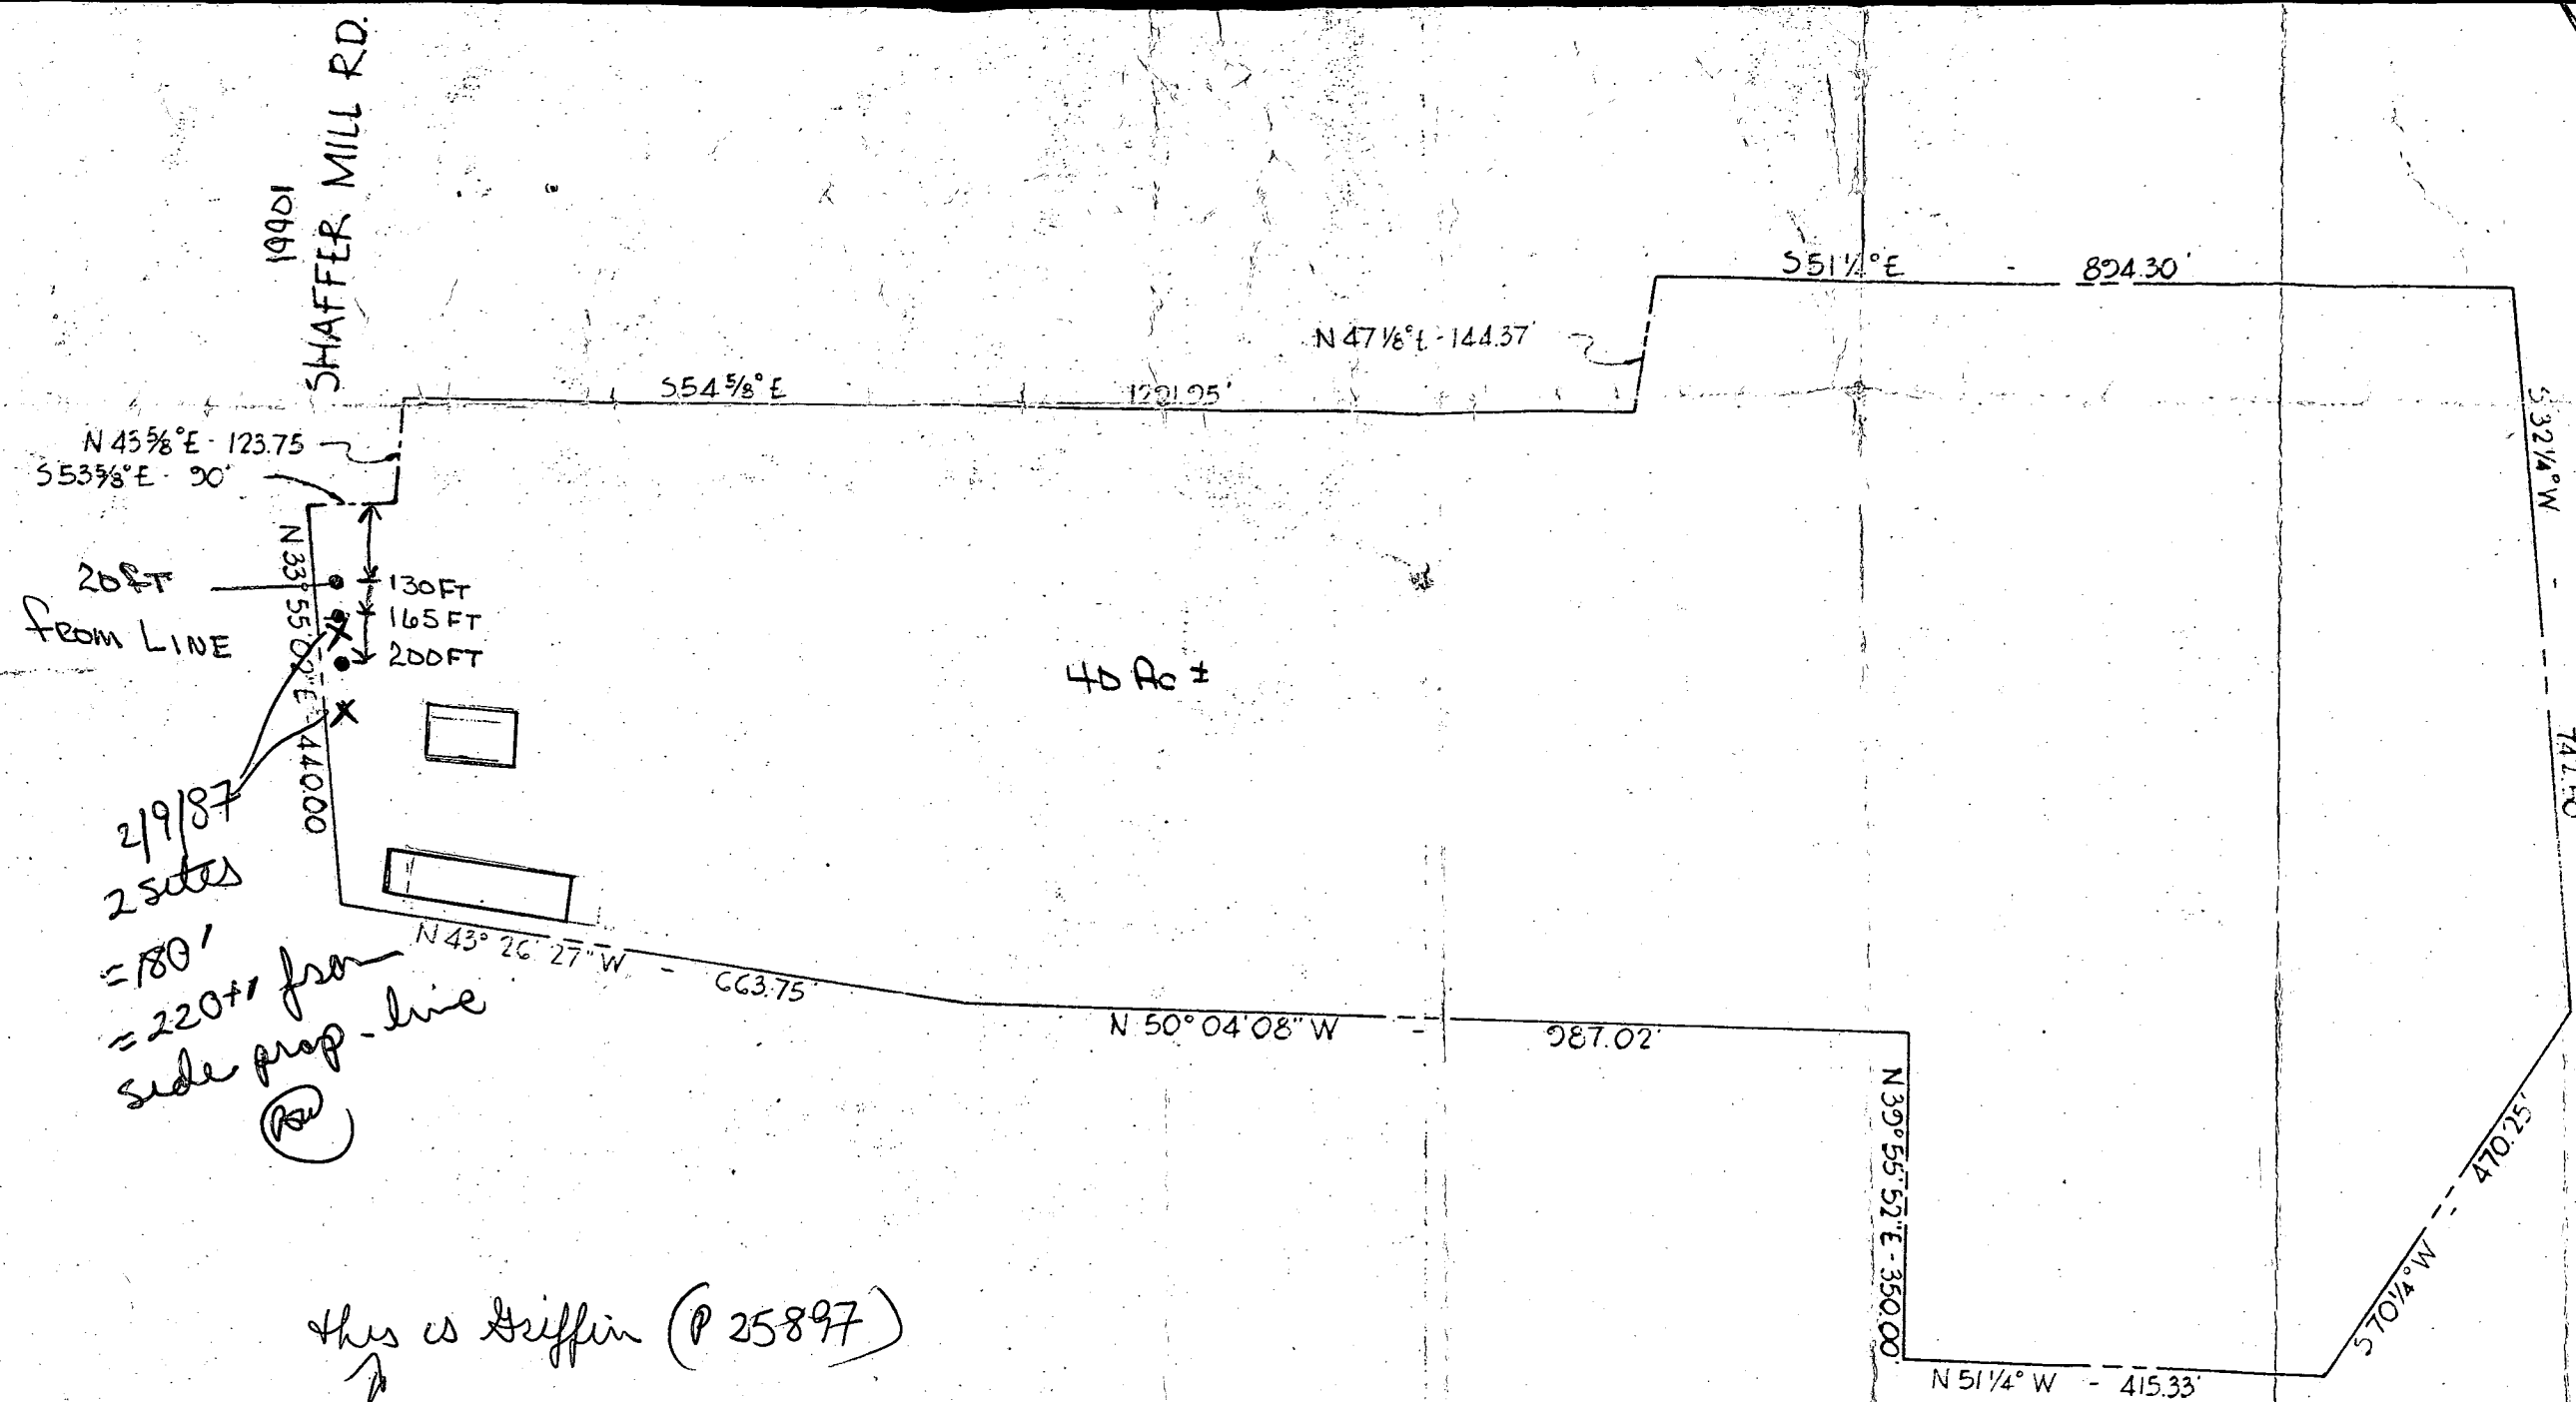

Our Landscape Operation is where we use plant material grown at our nursery & then do landscape jobs, hydroseeding, and erosion control for builders and developers.

We do not do retail sales.

We have two buildings on our property. Building #1, which is a 42/99 ft. pole barn, is used for tractor & equipment storage and also for seed & fertilizer storage. Building #2, which is a 40/65 ft. bank barn, is used for hay & straw storage.

As for the amount of employees we generally carry: in the Winter months, 3 full time employees. In the summer, we carry a total of 10-12 full & part time employees.

Re: Silo Property
Wells and Septic

Dear Mr. Reich:

Our firm is conducting a Phase I Environmental Audit for a site known as the Silo Property. The site is located along Shaffers Mill Road, near Shaffers Mill Estates, in western Howard County and is located within the 21771 zip code. Cabin Branch runs along the rear of the property. The site is approximately 55 acres in size and had been used as a plant nursery in the past.

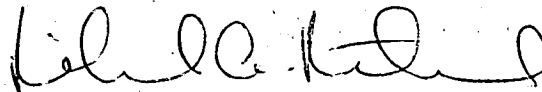

Existing environmental health conditions, including problems with septic and water issues or any other health related problems in the area of the subject property must be documented for legal and financial institutions. Please notify us if there are records of any failing or contaminated wells or septic associated with the Silo Property or the surrounding area.

We have attempted to supply your office with adequate information for this request. If you require additional information or have questions concerning the information provided, please contact our office.

Thank you for your time and consideration.

RE: State Water Appropriation
Permit No. H084G013
First Permit

Dear Permittee:

Enclosed is your State Water Appropriation Permit. The permittee is responsible for complying with all permit conditions. Accordingly, you are advised to carefully read the Permit and become thoroughly familiar with its requirements. PLEASE NOTE THAT IF THE WATER IS NOT PUT TO USE WITHIN TWO (2) YEARS, THE PERMIT WILL EXPIRE.

If you find the Permit unacceptable, you may appeal within 30 days of the effective date, pursuant to the provisions of Title 1 of the Natural Resources Article, Annotated Code of Maryland (1983 Replacement Volume) as amended. The appeal must be in writing and must specify the basis of the request for review.

If you have any questions, please contact this office at 269-2456.
