RE: Building Permit #60605
Proposed Addition
15924 Meadow Walk Road

Dear Mr. Seitz:

The above referenced building permit application was recommended for approval after you provided clarification that adequate clearance to the installed septic system was provided.

The septic tank was originally oversized, provided sufficient capacity relative to the additional installation load associated with the proposed addition. Provision of additional disposal field (trench) capacity was suggested but not required. Should you elect to pursue this option please contact this office to secure the septic repair permit (\$25.00 permit fee) and to schedule the necessary inspection.

Very truly yours,

Craig Williams, Program Director
Water & Sewerage Program

Dear Mr. Gartrell:

This office has recently assumed responsibility from the Bureau of Inspections, Licenses and Permits for inspection and approval of well pumps, pitless adapters, and pressure tanks in private water systems.

As this permit process has not yet been formalized, this letter will serve as your permit to install the pitless adapter, well pump, water service piping and pressure tank at the above referenced sites.

Information will be sent to you regarding this permit process as soon as it is available. The fee for this permit will be ten dollars. Checks can be made payable to Howard County Health Department.

Please call for inspection 24 hours (if possible) before inspection is needed, and if you have any other questions regarding this or other well pump permits, at 992-2330.

Very truly yours,
